## FIRST PACIFIC RECORDS TURNAROUND INTERIM PROFIT OF US\$26.8 MILLION Operating profit up 65% to US\$137.4 million; recurring profit up 25% to US\$15.6 million

First Pacific today reported a first half 2002 profit attributable to ordinary shareholders of US\$26.8 million (HK\$209.0 million), a turnaround compared with the first half loss of US\$12.1 million (HK\$94.4 million loss) for the comparable period.

Turnover of US\$899.1 million (HK\$7,013.0 million) was broadly unchanged year on year, while operating profit grew 64.6 per cent to US\$137.4 million (HK\$1,071.7 million), both reflecting improved underlying operational performances, offset by the effects of business disposals. Turnover from continuing businesses improved 18.4 per cent to US\$898.7 million (HK\$7,009.9 million), principally due to Indofood (up 25 per cent).

Foreign exchange gains of US\$11.2 million (HK\$87.4 million) were recorded for the first half of 2002, compared with foreign exchange losses of US\$32.5 million (HK\$253.5 million) for the comparable period of 2001. These gains arose on the settlement and translation of the Group's net monetary liabilities as the rupiah and peso strengthened against the U.S. dollar.

Recurring profit, which excludes the effects of foreign exchange gains, increased by 24.8 per cent to US\$15.6 million (HK\$121.7 million), from US\$12.5 million (HK\$97.5 million) in the first half of 2001. Underpinning this growth were improved contributions from Indofood (up 33 per cent), PLDT (up 24 per cent) and maiden profits of US\$0.6 million from Escotel. These were partially offset by deeper losses at Metro Pacific.

Earnings per share was US0.85 cent (HK6.63 cents) for 2002, compared with the loss per share of US0.39 cent (HK3.04 cents) recorded for 2001.

At the Head Office level, overhead expenses declined to US\$5.0 million (HK\$39.0 million) as cost-cutting measures took effect, and net financing income of US\$0.5 million (HK\$3.9 million) was recorded. Interest expense declined to US\$9.6 million (HK\$74.9 million) on lower average debt levels and lower borrowing costs, and interest income increased to US\$10.1 million (HK\$78.9 million), reflecting US\$9.2 million (HK\$71.8 million) of interest accrued on the still outstanding US\$90 million Larouge Loan.

Net current assets totaled US\$155.9 million (HK\$1,216.0 million) at 30 June 2002, compared with net current liabilities of US\$234.5 million (HK\$1,829.1 million) at 31 December 2001. This strengthened position reflects the success of refinancing efforts at both the Head Office and Indofood.

The consolidated gearing ratio improved to 2.79 times at 30 June 2002 (31 December 2001: 3.93 times), reflecting enhanced net assets due to profits recorded and stronger regional currencies. At 30 June 2002, the Company gearing was 0.2 times (31 December 2001: 0.09 times).

The Directors do not propose the payment of an interim dividend (1H01: Nil).

### Proposed transaction with the Gokongwei Group

On 5 June 2002, First Pacific announced its signing of a legally binding Memorandum of Agreement (MOA) with the Gokongwei Group for the establishment of joint venture arrangements in relation to First Pacific's existing interests in PLDT and BLC.

Since that announcement, First Pacific has focused upon addressing and discussing various transaction-related issues with the Gokongwei Group (due diligence), NTT (right of first refusal) and PLDT (due diligence access and director nomination and election) in order to resolve these issues and close the transaction. Currently, First Pacific has advanced documentation and commenced the transaction's pre-closing reorganization steps, while continuing to target a third quarter closing.

### U.S. lawsuit

First Pacific disclosed the material terms and conditions of the MOA in its 5 June 2002 announcement, which announcement was made in accordance with the Hong Kong Stock Exchange Listing Rules on "Notifiable Transactions".

On 3 July 2002, PLDT initiated a U.S. lawsuit against First Pacific and certain related companies, to compel disclosure of the MOA itself to PLDT, whose securities are listed and traded in the U.S. To address this nuisance lawsuit and avoid unnecessary legal expense, First Pacific voluntarily disclosed the MOA on 19 July 2002 to all relevant entities. Although First Pacific's action confirmed that it had disclosed the MOA's material terms and conditions on 5 June 2002, PLDT still has not clarified its reasons for continuing the lawsuit.

First Pacific will make further announcements as and when appropriate. All previous announcements relating to the transaction are available at www.firstpacco.com.

#### Infrontier

First Pacific has reduced its interest in Infrontier Limited (Infrontier) to 19 per cent from 100 per cent, effective 30 April 2002.

First Pacific's decision was based on the fact that, while the enterprise continues to offer longerterm potential, key financial objectives were not achieved. Accordingly, First Pacific decided to limit its direct financial support for Infrontier, which to date has totaled US\$24 million.

Under the terms of the transaction, which was signed today, First Pacific has transferred a controlling stake of 81 per cent to the incumbent management who, with effect from 1 May 2002, have been responsible for meeting Infrontier's support requirements. Mr. James Jones has replaced Mr. Edward A. Tortorici, Executive Director of First Pacific, as CEO of Infrontier as Mr. Tortorici has stepped down.

In order to participate in Infrontier's future growth, First Pacific has retained a minority stake of 19 per cent, will have proportional representation on the Infrontier board, and holds an option, exercisable until 30 April 2003, to increase its shareholding to 49 per cent.

For the period to 30 April 2002, Infrontier contributed a loss of US\$2.3 million and, with effect from 1 May 2002, Infrontier has been accounted for as a long-term investment.

## Further information and analysis

### CONTRIBUTION SUMMARY

During the year, the Group's continuing businesses improved their profit contribution by eight per cent to US\$22.4 million (1H01: US\$20.7 million), while recurring profit improved by 25 per cent to US\$15.6 million (1H01: US\$12.5 million). Foreign exchange gains of US\$11.2 million (1H01: US\$32.5 million loss) were recorded, reflecting stronger regional currencies. There follows a contribution summary.
