Hong Kong, 19th August, 2016 – First Pacific Company Limited (HKSE: 00142) ("First Pacific" or the "Company") today reported its unaudited financial results for the six months ended 30th June 2016.

First Pacific, a leading investment management and holding company focused on the economies of emerging Asia, is a major or controlling shareholder in the Philippines' biggest telecommunications, infrastructure and mining companies and in Indonesia's biggest vertically-integrated food company as well as in one of Australia's and New Zealand's biggest food companies.

Under trading conditions marked by unfavorable currency movements and weakened commodity prices, key growth drivers for the Group delivered strong contributions while other units were held back by difficult market conditions. Overall contribution declined 8% to \$226.2 million from \$245.1 million.

The main factors behind the decline were difficult market conditions at PLDT Inc. (formerly known as Philippine Long Distance Telephone Company) ("PLDT") and FPM Power Holdings Limited ("FPM Power"), the holding company for PacificLight Power Pte. Ltd. Stronger results from PT Indofood Sukses Makmur Tbk ("Indofood"), Metro Pacific Investments Corporation ("MPIC") and Philex Mining Corporation ("Philex") as well as a greater contribution from Goodman Fielder Pty. Ltd. ("Goodman Fielder") mitigated these shortfalls.

At the same time, the Group has acted to firm up the market position of PLDT and MPIC while reducing net debt at First Pacific in a series of transactions at the end of May 2016.

"We are already beginning to leverage our new spectrum assets at PLDT to build momentum in market share," said Manuel V. Pangilinan, Managing Director and Chief Executive Officer of First Pacific, referring to the purchase of telecommunications assets by PLDT in late May 2016. "At the same time we have increased MPIC's exposure to power generation in the fast-growing Philippine economy and we've raised funds at First Pacific to reduce our overall debt and our interest bill."

These transactions were announced on 27th and 30th May 2016. They included PLDT's acquisition of half of the telecommunications assets of San Miguel Corporation and its sale of 25% of Beacon Electric Asset Holdings Inc. ("Beacon Electric") to MPIC. MPIC in turn sold new shares to GT Capital Holdings, Inc. ("GT Capital") while a Philippine affiliate of First Pacific sold part of its MPIC stake to GT Capital to raise \$169 million for debt reduction. Beacon Electric in turn bought 56% of Global Business Power Corporation ("GBPC"), the biggest power producer in the Visayas.

"So, even before reporting what are frankly uneven results for First Pacific Group companies, we are proactively moving to improve performance going forward. It is with confidence rooted in this that our Board of Directors has approved an interim distribution of 8.0 HK cents, unchanged from last year," Pangilinan said.

Earnings per share in the first half of 2016 amounted to 23.3 HK cents (2.99 U.S. cents), down from 28.7 HK cents (3.68 U.S. cents) in the same period of 2015. On a fully diluted basis earnings per share was 23.3 HK cents (2.99 U.S. cents), down from 28.5 HK cents (3.66 U.S. cents).

Expenses at First Pacific in the first half of the year including head office costs, net interest expense and other expenses, fell 3% to \$68.4 million from \$70.3 million a year earlier. Recurring profit fell 10% to \$157.8 million from \$174.8 million a year earlier. First Pacific's share in PLDT's impairment provision for investment in Rocket Internet shares was the greatest factor in a 19% decline in net profit to \$127.6 million from \$157.4 million. Turnover at First Pacific was up 3% to US\$3.44 billion from US\$3.33 billion a year earlier.

At 30th June 2016, gross debt at the Head Office stood as \$1.8 billion and net debt at \$1.5 billion. Fixed-rate debt made up 82% of the total with floating-rate debt making up the remaining 18%. First Pacific's blended interest cost amounted to 5.3% and the average maturity of its debt was 3.6 years.

REVIEW OF OPERATIONS

PLDT reported a 6% decline in core income in the first half of the year to ₱17.7 billion from ₱18.9 billion in the first half of 2015 owing mainly to lower cellular service revenues due to intense competition, higher handset subsidies and provisions for receivables and inventories.

More details are available at www.pldt.com.

Indofood reported a 7% increase in core income to Rp2.2 trillion from Rp2.1 trillion a year earlier on strong sales growth at the Noodles and Dairy divisions, partly offset by lower sales by its Plantations division.

More details are available at www.indofood.com.

MPIC reported a 13% increase in core income in the first half of 2016 to ₱6.6 billion from ₱5.9 billion in the first half of 2015 as most of its businesses delivered strong growth in spite of regulatory challenges.

More details are available at www.mpic.com.ph.

Goodman Fielder reported a 7% increase in profit contribution to First Pacific to A\$20.7 million for the first six months of 2016 versus A\$19.4 million, reflecting a longer period of profit contribution from Goodman Fielder partly offset by a lower profit contribution from the New Zealand Dairy division.

More details are available at www.goodmanfielder.com.

Philex reported a 49% rise in core income to ₱774 million from ₱520 million as a result of higher gold prices and lower production and operating costs.

More details are available at www.philexmining.com.ph.

FPM Power reported a 45% increase in its share of loss by First Pacific to \$10.9 million versus \$7.5 million a year earlier on continuing difficult market conditions.

OUTLOOK

The bottom line of First Pacific's performance in the first half of 2016 reflects the uneven performance delivered by operating companies. PLDT continues to suffer from the replacement of high-margin service revenues like cellular voice by lower-margin sources, like mobile data. FPM Power in Singapore remains stuck between a long-term fuel supply contract and intense competition. By contrast, MPIC continues to grow fast and is likely to deliver record high earnings in the full year, and Indofood's outlook is very positive. Goodman Fielder is repositioning itself for strong growth in the second half of the year and going forward. Philex has impressively reduced costs and is reaping gains from higher gold prices.

First Pacific Chief Executive Pangilinan concluded:

We are confident that the resources acquired by PLDT in the first half of the year will be key to transforming its operational and financial performance going forward while MPIC is already benefiting from its greater ownership of Meralco and its new exposure to power generation in the Visayas region of the Philippines. The transactions which delivered these results also sent cash up to First Pacific which will be used to reduce our borrowings during a period of constrained dividend income.

Our newest investment, Goodman Fielder, has made significant progress in restructuring its Australian baking operations to reduce costs while pursuing strong growth across its Asia-Pacific markets. Indofood saw sales growth in nearly all of its divisions and is performing strongly notwithstanding the uneven commodity prices. Philex is continuing to explore new avenues of expansion of its resource base even as its Management keeps a tight control over costs as the company benefits from higher gold prices. FPM Power remains a work in progress and we are hopeful of positive news from this direction in the months ahead. Given the strong commitment and talent of our management team and the continuing positive outlook for the economies of emerging Asia, our outlook for the full year is positive for First Pacific.
