Hong Kong, 29th August 2018 – First Pacific Company Limited (HKSE: 00142) ("First Pacific" or the "Company") today reported its unaudited financial results for the six months ended 30th June 2018, with net profit up from a year earlier, while otherwise strong performance by operating companies was hurt in translation to U.S. dollar-denominated contribution by weaker exchange rates.

First Pacific is a leading investment management and holding company focused on the economies of emerging Asia and is a major or controlling shareholder in the Philippines' leading telecommunications, infrastructure and mining companies and in Indonesia's biggest vertically-integrated food company as well as holding other investments in the region.

Net profit, or profit attributable to owners of the parent, rose 1% to US\$133.8 million from US\$133.1 million on lower non-recurring losses as turnover rose 8% to its highest-ever half-year level – US\$3.84 billion versus US\$3.57 billion a year earlier. Total contribution from operations fell 8% to US\$213.8 million from US\$231.8 million a year earlier. Helped by lower Head Office costs (overhead, net interest expense and others), recurring profit declined at a slower pace than contribution, falling 5% to US\$161.0 million from US\$168.7 million.

Basic earnings per share remained flat at U.S. 3.09 cents (24.1 HK cents) from U.S. 3.10 cents (24.2 HK cents). Recurring basic earnings per share (based on recurring profit) declined 5% to U.S. 3.72 cents (29.0 HK cents) from U.S. 3.93 cents (30.7 HK cents). First Pacific's Board of Directors approved an interim distribution of 8.00 HK cents (U.S. 1.03 cents) (1H 2017: 8.00 HK cents (U.S. 1.03 cents)), representing a payout ratio of 28% of recurring profit, up from 26% in the previous period.

The interim distribution is in line with the prudent capital management exemplified by the Company's liability management exercise in May this year in which First Pacific bought and retired US\$220 million of outstanding bonds and issued a seven-year US\$175 million bond at the same time, said Managing Director and Chief Executive Officer Manuel V. Pangilinan.

"We manage our operating investments for long-term earnings growth and the rising dividend flow we can expect from that, which in turn finances our own distribution to shareholders," he said. "First Pacific has committed since 2010 to a distribution payout ratio of approximately 25% of full-year recurring profit as a key objective of our long-term capital management policy."

Nearly 95% of First Pacific's total contribution of US\$213.8 million in the first half of 2018 came from its three core holdings: PT Indofood Sukses Makmur Tbk ("Indofood"), the biggest food company in Indonesia; Metro Pacific Investments Corporation ("MPIC"), the biggest infrastructure investment firm in the Philippines, and PLDT Inc. ("PLDT"), the Philippines' largest telecommunications company.

Non-recurring factors such as inventory holdover in its Agribusiness were integral to the 9% decline in Indofood's contribution to US\$70.3 million from US\$77.2 million a year earlier.

MPIC's contribution rose 3% to US\$69.1 million from US\$66.9 million because of stronger volumes in most of its businesses and greater ownership of its electricity investments.

PLDT's contribution declined 19% to US\$62.7 million from US\$77.7 million largely on the lower gain on sale of non-core assets, partially offset by higher earnings before interest, taxes, depreciation and amortization, and lower finance costs and non-cash expenses.

Goodman Fielder Pty Limited ("Goodman Fielder"), a leading food manufacturer based in Australia, saw its contribution rise 56% to US\$10.3 million from US\$6.6 million as a result of asset disposals and organic growth in some markets.

FPM Power, the holding company for PacificLight Power Pte. Ltd. ("PLP"), operator of a Singapore power plant, saw its negative contribution shrink to US\$3.4 million from US\$3.9 million amid continuing difficult market conditions.

The contribution from Philex Mining Corp. ("Philex"), one of the largest copper and gold mining companies in the Philippines, declined to US\$4.1 million from US\$6.1 million as lower grades and metal recoveries offset higher copper and gold prices.

FP Natural Resources (sugar and ethanol manufacturing under Roxas Holdings, Inc. of the Philippines) delivered a net contribution of US\$700,000, down from US\$1.2 million a year earlier, owing to higher costs particularly for fuel.

More performance details of the Company's operating investments can be found in First Pacific's earnings announcement located at http://www.firstpacific.com/financials/latest.php.

At First Pacific Head Office, net interest expense fell 12% to US\$38.0 million from US\$43.2 million; corporate overhead fell 7% to US\$12.1 million from US\$13.0 million; and other expenses fell 61% to US\$2.7 million from US\$6.9 million.

Non-recurring losses in First Pacific earnings declined 49% to US\$21.7 million from US\$42.8 million a year earlier. They included: the Company's share of non-core accelerated depreciation of wireless network assets at PLDT; and bond tender and debt refinancing cost incurred in the liability management exercise of May 2018 when First Pacific tendered for US\$220 million of outstanding bonds maturing in 2019 and 2020, and issued new seven-year bonds amounting to US\$175 million at the same time. This exercise reduced the Company's average borrowing cost and extended its debt maturity profile.

First Pacific Company Limited

At 30th June 2018, gross debt at First Pacific Head Office stood at US\$1.64 billion versus US\$1.61 billion at the end of 2017. Fixed-rate debt made up 61% of the total, with floating-rate debt making up the remaining 39%. First Pacific's blended interest cost amounted to 4.6% and the average maturity of its debt was 3.8 years. The next debt maturity for First Pacific is of the residual US\$215 million bonds remaining from a US\$400 million bond issue in 2012 due in June 2019. First Pacific has secured committed banking facilities to finance redemption of all the remaining issue.

First Pacific Chief Executive Pangilinan concluded:

"Our headline first-half numbers aren't telling the whole story. MPIC is again likely to show stronger earnings for the full year, while Indofood will likely be restrained only by lower palm oil prices and PLDT's cellular and fixed-line data offerings are delivering tearaway growth, showing us that this company's best days lie ahead of it," Pangilinan said. "These companies are the core holdings of First Pacific and they will remain core for as far ahead as I can see. We remain intent on launching a meaningful share repurchase program as we review our investment portfolio for potential disposal of assets that are missing our return targets. Proceeds from any asset disposal will go towards debt reduction and share repurchases to boost investor returns."
