2009 Interim Results - Unaudited

FINANCIAL HIGHLIGHTS

- Recurring profit improved by 0.8 per cent to US\$127.5 million (HK\$994.5 million) from US\$126.5 million (HK\$986.7 million).
- Profit attributable to owners of the parent increased by 4.8 per cent to US\$164.3 million (HK\$1,281.5 million) from US\$156.8 million (HK\$1,223.0 million), principally due to higher recurring profit contribution from MPIC.
- Profit contribution from operations decreased by 4.5 per cent to US\$151.4 million (HK\$1,180.9 million) from US\$158.6 million (HK\$1,237.1 million), principally due to lower contribution from Indofood's plantations division as a result of lower crude palm oil prices, partly offset by higher contribution from the water and tollroad businesses of MPIC.
- Non-recurring gains increased to US\$25.1 million (HK\$195.8 million) from US\$22.4 million (HK\$174.7 million), which
 mainly reflect Maynilad's reversal of provision for deferred credits following a resolution of new tariff rates with the
 regulator.
- Basic earnings per share increased by 5.1 per cent to U.S. 5.11 cents (HK39.9 cents) from U.S. 4.86 cents (HK37.9 cents).
- An interim dividend of HK4.00 cents (U.S. 0.51 cent) (2008: HK3.00 cents or U.S. 0.38 cent) per ordinary share has been declared.
- Equity attributable to owners of the parent increased by 17.4 per cent to US\$1,327.0 million (HK\$10,350.6 million) at 30 June 2009 from US\$1,130.1 million (HK\$8,814.8 million) at 31 December 2008.
- Consolidated gearing ratio improved to 0.98 times at 30 June 2009, compared with 1.06 times at 31 December 2008.

The Board of Directors considers the business from both product or service and geographical perspective. From a product or service perspective, the Group business interests are divided into four main segments, which are telecommunications, infrastructure, consumer food products and natural resources. Geographically, the Board of Directors considers the businesses of the Group are operating in the Philippines and Indonesia, respectively.

The Board of Directors assesses the performance of the operating segments based on a measure of recurring profit. This measurement basis measures the profit attributable to owners of the parent excluding the effects of foreign exchange and derivative gains/losses, gain/loss on changes in fair value of plantations and non-recurring items. Non-recurring items represent certain items, through occurrence or size, which are not considered as usual operating items.

5. Taxation

No Hong Kong profits tax (2008: Nil) has been provided as the Group had no estimated assessable profits (2008: Nil) in Hong Kong for the period. Taxation on assessable profits generated outside Hong Kong has been provided at the rates of taxation prevailing in the countries in which the Company's subsidiary companies operate.

6. A discontinued operation

Following a strategic review of MPIC's businesses which focus on core infrastructure, MPIC's directors decided in late 2008 to divest part of its interest in the property business, Landco Pacific Corporation (Landco), which was operated by MPIC. As at 31 December 2008, the Group's investment in Landco was classified as a disposal group held for sale. In June 2009, MPIC disposed 17.0% interest in Landco for Pesos 203 million (US\$4.2 million or HK\$32.8 million), thereby reducing its interest in Landco from 51.0% to 34.0%. Following this transaction, the Group's remaining 34.0% interest in Landco was classified as non-current assets held for sale.

7. Profit attributable to owners of the parent

The profit attributable to owners of the parent includes US\$3.3 million (HK\$25.7 million) of net foreign exchange and derivative gains (2008: losses of US\$4.8 million or HK\$37.4 million) on foreign exchange translation differences on the Group's unhedged foreign currency denominated borrowings and payables and the changes in the fair values of derivatives, US\$8.4 million (HK\$65.5 million) (2008: US\$12.7 million or HK\$99.1 million) of gain on changes in fair value of plantations and US\$25.1 million (HK\$195.8 million) (2008: US\$22.4 million or HK\$174.7 million) of net non-recurring gains.

The non-recurring gains of US\$25.1 million (HK\$195.8 million) for 2009 mainly represent Maynilad's reversal of provision for deferred credits following a resolution of new tariff rates with the regulator. The non-recurring gains of US\$22.4 million (HK\$174.7 million) for 2008 mainly comprise a gain on divestment and dilution of the Group's interest in PLDT of US\$9.8 million (HK\$76.4 million).

8. Ordinary share dividend

At a meeting held on 4 September 2009, the Directors declared an interim cash dividend of HK4.00 cents (U.S. 0.51 cent) (2008: HK3.00 cents or U.S. 0.38 cent) per ordinary share.

9. Earnings per share attributable to owners of the parent

The calculation of basic earnings per share is based on the profit for the period attributable to owners of the parent of US\$164.3 million (HK\$1,281.5 million) (2008: US\$156.8 million or HK\$1,223.0 million), and the weighted average number of ordinary shares of 3,214.3 million (2008: 3,226.4 million) in issue during the period.

The calculation of diluted earnings per share is based on: (i) the profit for the period attributable to owners of the parent of US\$164.3 million (HK\$1,281.5 million) (2008: US\$156.8 million or HK\$1,223.0 million) reduced by the dilutive impact of (a) US\$0.1 million (HK\$0.8 million) (2008: US\$0.1 million or HK\$0.8 million) in respect of the exercise of share options issued by its associated companies and (b) nil (2008: US\$3.4 million or HK\$26.5 million) in respect of the convertible notes issued by its previous joint venture DMWC (which became a subsidiary company since July 2008) and (ii) a share base equal to the aggregate of the weighted average number of ordinary shares of 3,214.3 million (2008: 3,226.4 million) in issue during the period (as used in the basic earnings per share calculation) and the weighted average number of ordinary shares of 37.6 million (2008: 59.9 million) assumed to have been issued at no consideration on the deemed exercise of all share options of the Company during the period.

The impact upon full conversion of the MPIC's share options has not been taken into account in calculating the diluted earnings per share because their anti-dilutive effect on the basic earnings per share for the period would actually increase the earnings per share.

15. Subsequent events

- (A) On 10 July 2009, LAWL Pte. Ltd (LAWL) completed the subscription of 791.1 million of new common shares issued by MPIC for Pesos 2.0 billion (approximately US\$41.6 million or HK\$324.5 million), which reduced the Group's economic interest in MPIC from approximately 97.9% to approximately 90.3%. The Group is expected to record a dilution gain of approximately US\$10 million (HK\$78 million) from this transaction.
- (B) On 14 July 2009, Pilipino Telephone Corporation (Piltel), a subsidiary company of PLDT, completed the acquisition of 223.0 million common shares of Manila Electric Company (Meralco) from First Philippine Utilities Corporation at a total consideration of Pesos 20.1 billion (approximately US\$418.8 million or HK\$3,266.6 million).

On 17 July 2009 (the Reference Date), MPIC entered into two separate preliminary agreements (term sheets) with (a) Beneficial Trust Fund of PLDT (BTF Term Sheet) and (b) Crogan Limited (Crogan), a wholly-owned subsidiary company of the Company, and Metro Pacific Holdings, Inc. (MPHI), a Philippine affiliate of the Company (MPHI Term Sheet), respectively. The BTF Term Sheet contemplates that MPIC will purchase 113.3 million common shares of Meralco (representing an approximately 10.17% interest in Meralco) from BTF at a total consideration of Pesos 14.3 billion (approximately US\$297.4 million or HK\$2,319.7 million), which will be partly funded by the cash proceeds from BTF's subscription of 2.7 billion new common shares of MPIC, at a price of Pesos 3.5 (US\$0.073 or HK\$0.57) per share, for a total subscription price of Pesos 9.5 billion (approximately US\$197.4 million or HK\$1,539.7 million). The MPHI Term Sheet contemplates that MPIC will purchase 31.1 million common shares of Meralco (representing approximately 2.79% interest in Meralco) from Crogan at a total consideration of Pesos 3.9 billion (approximately US\$81.6 million or HK\$636.5 million), which will be partly funded by the cash proceeds from MPHI's subscription of 742.5 million new common shares of MPIC, at a price of Pesos 3.5 per share (US\$0.073 or HK\$0.57), at a total consideration of Pesos 2.6 billion (approximately US\$54.1 million or HK\$422.0 million). In addition, according to the MPHI Term Sheet, Crogan has the option to (a) apply the remaining amount of consideration payable by MPIC to Crogan of Pesos 1.3 billion (approximately US\$27.5 million or HK\$214.5 million) for the purchase of Meralco common shares in subscribing for more common shares of MPIC at the price of Pesos 3.5 per share (US\$0.073 or HK\$0.57) and (b) assign to MPHI its right to receive the said total consideration for the sale of Meralco common shares to MPIC.

Upon completion of the above transactions, the Group's economic interest in MPIC will be reduced from approximately 90.3% to either 73.0% or 73.7%, and the Group is expected to record a dilution gain of either US\$40 million (HK\$312.0 million) or US\$42 million (HK\$327.6 million), depending on whether Crogan exercises the right to subscribe for more MPIC common shares (as mentioned above).

In addition, MPIC has undertaken in the BTF Term Sheet that, subject to favourable market conditions as determined by its board of directors, MPIC will conduct a fund raising exercise (a "Re-launch" of its listed shares) to broaden its current investor base, which will be effected by way of a public offering or placement of MPIC's shares to independent investors and result in an offering to public shareholders of a minimum of the lower of (a) 15% of MPIC's fully diluted equity and (b) US\$100 million (HK\$780 million) in value of shares valued at the Re-launch issue price. MPIC agreed that it would not, within a period of 90 days from the Reference Date, issue shares or other securities at a price less than the Pesos 3.5 (US\$0.073 or HK\$0.57 per share) and in the alternative, that if MPIC do so, MPIC will compensate BTF and MPHI for the difference between the aggregate subscription price paid by BTF and MPHI for the above-mentioned subscriptions and the value of those shares at the Re-launch issue price in the form of additional MPIC common shares, to be issued at the Re-launch issue price.

16. Comparative amounts

As explained in Note 1(B) to the Condensed Interim Financial Statements, due to the adoption of HKAS 1 (Revised) and HKFRS 8 during the period, the presentation of certain items and balances has been revised to comply with such changes. Accordingly, certain comparative amounts have been reclassified to conform with the current period's accounting presentation. In addition, the comparative income statement has been restated as if a discontinued operation had been discontinued at the beginning of the comparative period.

REVIEW OF OPERATIONS

The operating environment has been difficult during the period, particularly with respect to the lower global demand for commodities. However, our pro-active management of the Group's operating businesses has seen growth, improved performance and stronger cash flows. The strong dividend inflow to First Pacific has enabled an increasing dividend payout since 2005.

Below is an analysis of results by individual company.

Following MPIC's disposal of a 17.0% interest in Landco in June 2009, which reduced MPIC's interest in Landco from 51.0% to 34.0%, the Group's investment in Landco was reclassified from a disposal group classified as held for sale to assets held for sale in the Condensed Interim Financial Statements.

Recurring profit ↑1%	to US\$127.5 million from US\$126.5 million
	comprising a significantly improved performance by MPIC, a lower
	contribution by Indofood in view principally of the decline in crude palm oil

The Group's operating results are denominated in local currencies, principally the peso and rupiah, which are translated and consolidated to provide the Group's results in U.S. dollar. The changes of these currencies against the U.S. dollar are summarized below.

During the period, the Group recorded net foreign exchange and derivative gains of US\$3.3 million (1H08: losses of US\$4.8 million), which may be further analyzed as follows:

Foreign currency hedging

At the Head Office, First Pacific hedges only declared dividends from operating companies, mainly peso dividends from PLDT. Rupiah dividends from Indofood are not hedged due to the high cost of such.

Debt profile

At 30 June 2009, gross debt at the Head Office stood at US\$780.4 million. The company is in advanced discussion with financial institutions for refinancing the US\$150 million due to be repaid in the fourth quarter of 2009. The remaining balance of US\$630.4 million will mature between 2011 and 2013. All bank loans are on a floating interest rate basis.

Interest rate hedging

Since all the bank loans are on a floating rate basis, to manage the interest rate risk, a 3.75 years interest rate swap contract to convert the interest rate of a US\$200 million from floating to fixed was entered in April 2009.

Interest cover

For the first six months, Head Office's recurring operating cash inflow was approximately US\$59 million and interest payments were approximately US\$11 million. Interest cover stood at approximately 5 times.

Interim dividend

The Board has declared an interim cash dividend of HK4.00 cents (U.S. 0.51 cent) (1H08: HK3.00 cents (U.S. 0.38 cent)) per ordinary share representing a dividend payout of approximately 13% (1H08: 10%). Dividend warrants will be dispatched to shareholders on or about 9 October 2009. Dividend yield increased to approximately 0.8% (1H08: 0.6%) based on closing price of HK\$5.37 on 4 September 2009.

Outlook

First Pacific is expecting a challenging operating environment during the second half of the year. However, given the improvements in operations over the last few years and further growth through managed capex and marketing initiatives, the company anticipates a reasonably strong second half performance.

With respect to further investments, First Pacific continues to review mining opportunities given that there are significant mining reserves and a more favorable regulatory environment in the Philippines; MPIC continues to study other water distribution concessions and enhancements to its tollroad portfolio along with other infrastructure opportunities. PLDT through Piltel completed its investment in Meralco in July. MPIC plans to complete its investment in Meralco by October 2009 and intends to acquire further shares in Meralco when opportunities arise.

PLDT

PLDT contributed a profit of US\$102.9 million to the Group (1H08: US\$106.9 million). This represents 68% of First Pacific's aggregate contribution derived from the operations of subsidiary and associated companies for the period. This profit contribution (after the impact of a 12% depreciation of the average peso against U.S. dollar) was a reflection of higher wireless service revenue, lower provision for income taxes on account of the lower Philippine corporate income tax rate, higher employee compensation and benefit costs, and larger rental expenses.

During the period, the inflation rate in the Philippines decreased to 5.0% from 7.6% for the same period of 2008.

Consolidated core net income	• to Pesos 20.8 billion (US\$432.8 million) from 18.7 billion (US\$442.3 million)

Approximately 29% or Pesos 21.3 billion (US\$443.0 million) of PLDT Group's consolidated service revenues are U. S. dollar-denominated or linked to the U.S. dollar.

Interim Dividend

PLDT sustained its strong performance and robust free cash position despite the continued uncertainty in the global and domestic markets. PLDT declared an interim regular dividend of Pesos 77 (US\$1.6), a 10% increase from the first half of 2008 and representing the committed 70% payout of core earnings.

Share Buyback

In 2008, PLDT's board approved a share buyback program of up to 5 million shares. As of 30 June 2009, PLDT had bought back 2.7 million shares into treasury at an average cost of Pesos 2,388 (US\$50) per share. PLDT will continue to buy back its shares from the market on opportunistic basis.

On 2 March 2009, Piltel's board approved a share buyback program of up to 25 million shares, representing approximately 0.2% of Piltel's issued shares. Piltel completed this during the period at an average cost of Pesos 7.48 (US\$0.156) per share. On 3 August 2009, another buyback program was approved for up to 61.5 million shares, representing the remaining 0.5% outstanding shares of Piltel.

Wireless

Smart and Piltel's combined 2G/3G subscriber base grew 16% to 38.5 million (1H08: 33.2 million) representing approximately 52% of the total cellular market in the Philippines based on subscribers and approximately 60% in terms of revenue. Total broadband subscribers – DSL fixed and wireless – grew 26% to over a million.

New services launched during the period included:

Sandbox - employing web platform for social networking, online music, game and video downloading, and other web services

Smartalk - unlimited calls offer to all Smart Buddy and Smart Gold subscribers on the Smart network

Wireless service revenues \$\dagger{5}\%	• to Pesos 48.1 billion (US\$1,000.8 million) from Pesos 45.8 billion (US\$1,083.3 million)

Cellular voice revenues †5%	to Pesos 19.1 billion (US\$397.4 million) from Pesos 18.1 billion (US\$428.1 million)

Smart continues its commitment to offer affordable premier telecommunication services to its customers that respond to their needs and economic conditions. In addition to bucket-priced SMS packages, it will accelerate the rollout of 3G and the 850 MHz HSPA networks by the end of this year to meet increasing demand for higher quality broadband services.

Fixed LineFixed line subscribers remained stable at 1.8 million.

Fixed line service revenues \$\frac{1}{3}\%\$	to Pesos 25.4 billion (US\$528.5 million) from Pesos 24.6 billion (US\$581.8 million)
	increased to 35% of PLDT's consolidated service revenues

	• reflecting higher cash operating expenses, pension costs and rental expenses for international leased circuits
EBITDA margin	52% similar to 2008 year end

The fixed line business continues to leverage on PLDT's fixed and wireless networks as it aims to expand its offers to the residential, corporate and small- and medium-sized enterprise (SME) markets to generate new and higher ARPUs. Among its segment-specific services and offerings are the fixed-wireless landline services *PLDT Landline Plus*, and *Call All* which allow free landline calls within a limited calling area. Tailor- made voice and broadband bundled packages are offered to SMEs.

Information and Communications Technology (ICT)

ePLDT provides customer interaction services (CIS) under the *Ventus* brand and knowledge processing solutions (KPS) services primarily through SPi Technologies, Inc. (SPi). CIS employs over 6,300 staff with combined seats of approximately 6,500 offering services at six customer interaction service facilities.

ePLDT's service revenues \$\dagger\$5%	to Pesos 5.2 billion (US\$108.2 million) from Pesos 5.0 billion (US\$118.3 million)
	 accounted for 7% of PLDT's consolidated service revenues
	 reflecting primarily a 59% growth in data center revenue due to an increase in co-location rental revenues and from server hosting
ePLDT EBITDA ↑4%	 to Pesos 511 million (US\$10.6 million) from Pesos 493 million (US\$11.7 million)
	 reflecting a 14% appreciation of average US\$/Peso exchange rate as 76% of ePLDT revenues are U.S. dollar denominated
	 and higher cash operating expenses in relation to compensation, maintenance and cost of sales
EBITDA margin	• remained stable at 10%

During the period, *Vitro* data center sustained its revenue growth with the trend expected to continue in the second half of 2009. SPi continues to focus on growing the publishing and medical billing businesses. ePLDT remains focused on improving operating margins as well as exploring new business opportunities.

Investment in Meralco

On 14 July 2009, PLDT – through its subsidiary Piltel – completed the acquisition of a 20% interest in the Manila Electric Company (Meralco) with full payment of the consideration of Pesos 20.1 billion (US\$417.6 million). Three nominees from the group were elected to Meralco's board at the Meralco Annual General Meeting held on 26 May 2009. The CFO of Meralco nominated by the group assumed the position on 1 July 2009.

A synergy team composed of members of PLDT and Meralco management, is identifying cooperative and efficiency enhancing opportunities. These are in the areas of sharing of facilities, power pole agreements, cross marketing and selling to subscriber bases, broadband over power lines, prepaid metering and others.

To consolidate the PLDT Group's cellular businesses, Piltel's shareholders agreed to sell the *Talk 'N Text* brand, its existing subscribers and GSM fixed assets to PLDT's wholly-owned subsidiary, Smart Communications, Inc., for a consideration of approximately Pesos 11.4 billion (US\$236.9 million). The transaction is expected to be completed by the third quarter 2009. Post the transaction, Piltel's primary asset and source of income will be its 20% investment in Meralco.

With the change in Piltel's business, Smart undertook a tender offer to Piltel's minority shareholders. With the completion of Smart's tender offer on 29 July, 2009, Smart's shareholding in Piltel increased to 99.5% from 92.8%. On 12 August 2009, Smart paid a total of Pesos 6.6 billion (US\$137.1 million) to those who availed of the tender offer.

The PLDT Beneficial Trust Fund (BTF) agreed to sell its approximately 10.17% interest in Meralco to Metro Pacific Investments Corporation (MPIC) for a combination of cash and new shares of MPIC for a total consideration equivalent to Pesos 14.3 billion (US\$297.1 million), which equates to a sale price of Pesos 126 (US\$2.6) per share of Meralco. BTF will own 2.7 billion new shares of MPIC worth Pesos 9.5 billion (US\$197.4 million) and will receive cash of Pesos 4.8 billion (US\$99.7 million). The transaction is expected to be completed by October 2009.

Outlook

While PLDT's wireless, broadband and data-related businesses sustained their strong performance in the first half of the year, growth prospects for the second half may be impacted by the lagged effect of the global financial crisis which may slow the Philippine economy. However, the low broadband penetration offers a high growth opportunity for both wireless and fixed line businesses. The budgeted capex of Pesos 27 billion (US\$561.8 million represents approximately 18% of this year's total service revenues, and is mainly for expanding PLDT Group's broadband capacity and upgrading the fixed line network.

Reconciliation of reported results between PLDT and First Pacific

PLDT's operations are principally denominated in peso, which averaged Pesos 48.06 (1H08: 42.28) to the U.S. dollar. Its financial results are prepared under Philippine GAAP and reported in peso. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Philippine GAAP and Hong Kong GAAP are largely based on International Financial Reporting Standards (IFRSs), however, certain adjustments need to be made to PLDT's reported peso results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

For the six months ended 30 June	2009	2008

- (i) First Pacific presents net income after deduction of preference dividends.
- (ii) Differences in accounting treatment under Philippine GAAP, compared with Hong Kong GAAP and other presentational differences. The adjustment principally relates to the accrual of withholding tax on PLDT's net income in accordance with the requirements of Hong Kong Accounting Standard (HKAS) 12 "Income Taxes".
- (iii) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative losses/gains (net of related tax) are excluded and presented separately.

MPIC

MPIC is becoming the leading infrastructure group in the Philippines and invested a total of Pesos 22.3 billion (US\$475.9 million) in 2008 to expand its water distribution, tollroads and healthcare businesses which now comprise:

- 58.0% in Maynilad Water Services, Inc. (Maynilad)
- 99.8% in Metro Pacific Tollways Corporation (MPTC), which owns 67.1% in Manila North Tollways Corporation (MNTC) and 46.0% in Tollways Management Corporation (TMC)
- 32.3% in Medical Doctors, Inc. (MDI), which owns 100% of Colinas Verdes Hospital Managers Corporation (CVHMC), the operator of Cardinal Santos Medical Center (CSMC)
- 34.9% in Davao Doctors Hospital (DDH)

During the period, MPIC's contribution to the Group increased 12 times to US\$14.6 million (1H08: US\$1.1 million) reflecting the consolidation of MPTC for the period, higher ownership and bigger contribution from Maynilad, together with increased contribution from the healthcare businesses.

Revenues	•	at Pesos 7,508 million (US\$156.2 million)
Reported net income †4 times	•	to Pesos 1,695 million (US\$35.3 million) from Pesos 339 million (US\$8.0 million)

	•	MPTC's contribution of Pesos 680 million (US\$14.1 million)
	•	Healthcare businesses' contribution growing 105% to Pesos 76 million (US\$1.6 million)

Water distribution

Maynilad owns the sole water distribution concession for the western half of Metro Manila until 2022. It is in the process of seeking a 15-year extension of the concession from the regulator. Currently, only 6.9 million of the 8.9 million population within the concession area are able to receive water services.

Maynilad's net contribution to MPIC's core income increased 17 times to Pesos 423 million (US\$8.8 million) (1H08: Pesos 25 million (US\$0.6 million)).

Service revenues †22%	 to Pesos 4,743 million (US\$98.7 million) from Pesos 3,903 million (US\$92.3 million) reflecting increased billed water volume and average tariff, and lower non-revenue water
Core EBITDA ↑24%	• to Pesos 3,025 million (US\$62.9 million) from Pesos 2,438 million (US\$57.7 million) being a reflection of a lower increase in cash operating expenses than revenue growth
Core income †8%	 to Pesos 1,307 million (US\$27.2 million) from Pesos 1,208 million (US\$28.6 million)
Total billed water volume †12%	 to 167 million cubic meters from 149 million cubic meters reflecting an increase in consumption per connection and a decrease in non-revenue water partly offset by a 1.3% reduction in water supply
Total billed customers ↑7%	• to 777,160 from 725,054
Average non-revenue water \$\dsymbol{1}7\%\$	 to 60.9% from 65.5% in the first half of 2008 reflecting leakage identification and the redirection of excess water to areas where customers require water

From May 2009, Maynilad's average tariff increased by Pesos 7.44 per cubic meter or 22.6% which comprises Pesos 5.02 for rate rebasing and Pesos 2.42 for Consumer Price Index (CPI) adjustment. It plans to invest a total of Pesos 32 billion (US\$665.9 million) in capital expenditure over the next four years in order to increase coverage area, to improve water pressure and to provide 24-hour water service, and to further reduce non-revenue water.

Tollroads

MPTC, through MNTC and TMC, operates the North Luzon Expressway (NLEX), Subic Clark Tarlac Expressway and Subic Freeport Expressway totaling 187 kilometers which comprises 70% of all toll roads in the Philippines. The concession for NLEX runs until 2037.

Service revenues †2%	 to Pesos 2,765 million (US\$57.5 million) from Pesos 2,704 million (US\$64.0 million) reflecting increase in traffic volume, improvement in operating efficiencies and cost management initiatives partly offset by an average 3% reduction in toll rates imposed in July 2008
Core EBITDA ↑5%	 to Pesos 1,718 million (US\$35.7 million) from Pesos 1,643 million (US\$38.9 million) being a reflection of a lower rate of increase in cash operating expenses than that of revenue salaries and wages and outside services decreased 18% and 24%,
Core income †6%	respectively to Pesos 636 million (US\$13.2 million) from Pesos 601 million (US\$14.2 million)
Daily traffic volume ↑5%	 to 151,653 vehicles from 144,643 vehicles stimulated by lower fuel prices

The NLEX has been granted options to expand its tollroad network. The construction of Segment 8.1, a 2.7 kilometer tollroad linking Mindanao Avenue to the NLEX gateway in Valenzuela City, is expected to be completed by April 2010. It plans to commence the construction of Segment 9 (link NLEX to MacArthur Highway) and Segment 10 (link NLEX to the Port Area and C3) in the last quarter of 2010 or first quarter of 2011.

In February 2009, MPTC signed a memorandum of understanding with the Philippine National Railways to build the Skyway Connector to connect the NLEX and the South Luzon Expressway. This connector road is expected to drive traffic volumes and reduce journey time by an hour.

Healthcare

MPIC is the single largest shareholder of MDI and DDH which are two of the leading private hospitals in the Philippines. MPIC is developing the first nationwide premier healthcare chain to deliver improved services in particular in diagnostic, therapeutic and preventive medical services.

MDI operates and manages the Makati Medical Center (Makati Med) which has a 770 bed capacity and a training facility for approximately 1,000 nursing students. The construction of a new 8-storey out-patient annex building with a 5-floor basement parking was inaugurated in February 2009.

DDH is the largest private hospital in Davao City with a 330 bed capacity and is considered the best medical facility in Mindanao. DDH operates a teaching institution Davao Doctors College Inc., which currently has approximately 3,500 students taking courses in nursing, radiologic technology, physical therapy, optometry, hotel and restaurant management and general education. It is in the process of establishing an eye center and will open a new parking building that will be completed in September 2009.

In February 2009, CVHMC, received approval from the Roman Catholic Archbishop of Manila for a 20-year operating contract for the CSMC. Progress of acquiring interest in Meralco

MPIC has agreed to acquire a total of approximately 12.96% interest in Meralco of which 10.17% will come from PLDT's Beneficial Trust Fund (BTF) and 2.79% from Crogan Limited (Crogan), a wholly-owned subsidiary of First Pacific. The settlement with BTF will be a combination of cash and new shares of MPIC with a total consideration equivalent to Pesos 14.3 billion (US\$297.4 million). MPIC will issue 2.7 billion of its common shares worth Pesos 9.5 billion (US\$197.4 million) and will pay cash of Pesos 4.8 billion (US\$100.0 million). The consideration for Crogan's 2.79% interest in Meralco is Pesos 3.9 billion (US\$81.6 million) of which Pesos 2.6 billion (US\$54.1 million) will be settled by issuing 742.5 million common shares of MPIC, Crogan has the option of receiving cash or additional 376.1 million common shares of MPIC for the remaining consideration of Pesos 1.3 billion (US\$27.5 million). The valuation per share of Meralco of these two transactions is Pesos 126 (US\$2.6) per share.

This investment is expected to be completed by October 2009. MPIC intends to acquire further shares in Meralco when opportunities arise.

Outlook

MPIC's assets are expected to show further growth and higher contributions to MPIC in the second half of the year as volume builds in both of the water and tollroad businesses.

MPIC will manage the capital expenditure and marketing programs of its businesses and review any suitable acquisition opportunities in the tollroad, water distribution and healthcare sectors in addition to acquiring an increased interest in Meralco.

Reconciliation of reported results between MPIC and First Pacific

MPIC's operations are principally denominated in peso, which averaged Pesos 48.06 (1H08: 42.28) to the U.S. dollar. Its financial results are prepared under Philippine GAAP and reported in peso. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Philippine GAAP and Hong Kong GAAP are largely based on IFRSs, however, certain adjustments need to be made to MPIC's reported peso results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

- (ii) Differences in accounting treatment under Philippine GAAP, compared with Hong Kong GAAP and other presentational differences. The principal adjustments include:
 - Reclassification of non-recurring items: Certain items, through occurrence or size, are not considered usual, operating items which are reallocated and presented separately. Adjustment for 1H09 of Pesos 1.0 billion principally represents Maynilad's reversal of provision of deferred credits following a resolution of new tariff rates with the regulator. Adjustment for 1H08 of Pesos 0.6 billion principally represents a gain on sale of assets of Pesos 0.3 billion, a recognition of the excess of the fair value of the acquired interest in MDI over the acquisition cost paid for it as income of Pesos 0.2 billion and gain realized from debt settlement of Pesos 0.1 billion.
 - Revenue recognition regarding pre-completion contracts for sale of development properties: Under Philippine GAAP, MPIC recognizes revenue from pre-completion contracts for sale of development properties based on the percentage of completion method. HKAS 18 "Revenue" and Hong Kong Interpretation 3 "Revenue Pre-completion Contracts for the Sale of Development Properties" requires the recognition of revenue for such contracts based on the satisfaction of certain conditions, which includes the transfer of significant risks and rewards of ownership of the properties to the buyers and the absence of continuing managerial involvement to the degree usually associated with ownership and effective control over the properties sold.
- (iii) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative gains/losses (net of related tax) are excluded and presented separately.

CPO price rebounded strongly in the second quarter of 2009 from two significantly factors - low harvest of the Argentinean soybean crop caused by a severe drought and strong demand for palm oil, especially from India and China, as it remains the most cost competitive vegetable oil. CPO price is expected to remain volatile for the rest of 2009 but as demand remains resilient, the mid-term outlook is positive.

Agribusiness Group is on track towards self sufficiency in supply of CPO. It plans to complete, in the second quarter of 2010, the construction of a refinery with an annual capacity of 420,000 tonnes in Jakarta.

Indofood's operations are principally denominated in rupiah, which averaged Rupiah 11,022 (1H08: 9,254) to the U.S. dollar. Its financial results are prepared under Indonesian GAAP and reported in rupiah. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Accordingly, certain adjustments need to be made to Indofood's reported rupiah results to ensure compliance with Hong Kong GAAP. An analysis of these adjustments follows.

 - Gain on changes in fair value of plantations: Under Indonesian GAAP, Indofood measures its plantations (biological assets) on a historical cost basis. HKAS 41 "Agriculture" requires the measurement of plantations at fair value less estimated point-of-sale costs. The adjustment relates to the change in fair value of plantations during the period.
 - Foreign exchange accounting: The adjustment relates to the reversal of the amortization of foreign exchange losses that were previously capitalized by Indofood on certain fixed assets under construction, as the originating capitalized foreign exchange losses has already been written off by First Pacific.

Philex Mining Corporation

First Pacific Group made its initial investment in mining with the acquisition of a 20% interest in Philex in November 2008. During the period, Philex's contribution to the Group for the period amounted to US\$2.1 million.

Philex has been operating the Padcal mine since 1958. It is the first underground block cave operation in the Far East, producing concentrates the majority of which are shipped to the Saganoseki smelter of Pan Pacific Copper Co., Ltd. in Japan. The Padcal mine has a work force of 2,589, and its operating life has recently been extended to 2017 based on the proven reserves of 74 million tonnes.

Total ore milled in the first half of 2009 amounted to 4.0 million tonnes at an average grade of 0.624 grams per tonne gold and 0.239% copper, producing 65.3 thousand ounces of gold and 17.6 million pounds of copper which comprises approximately 59% and 40%, respectively, of mining revenue – all of which are denominated in U.S. dollars. For the first half of 2009, the average realized prices for gold was US\$881 per ounce and for copper was US\$2.18 per pound. As of 30 June 2009, Philex had net cash balances of US\$48.8 million.

Hedging Positions

As of 30 June 2009, Philex has the following outstanding financial instruments: Three gold purchase put options totaling 29,700 ounces at strike price ranged from US\$750 to US\$800 per ounce, with the corresponding sold call options at the strike price ranged from US\$1,060 to US\$1,180 per ounce, maturing in December 2009. Two contracts for purchased gold put options totaling 54,000 ounces at the strike price of US\$610 per ounce, with the corresponding sold call options at the strike price of US\$800 per ounce, maturing up to March and April 2011. The marked-to-market loss of Pesos 422 million (US\$8.8 million) on these outstanding gold options qualify for hedge accounting and are thus carried in equity.

One currency forward contract with a balance of US\$11 million with weekly maturity of US\$1 million at the forward rate of Pesos 42 per \$1 maturing up to September 2009, with earlier termination provisions when the target profit is achieved and doubling of the notional amount if the fixing rate is higher than the forward rate.

Philex unrealized marked-to-market gains or losses on gold and copper options, and currency forwards are non-cash in nature.

Silangan Project

Located in the Northeast of Mindanao in the Philippines, this project combines the development of Boyongan deposit and Bayugo prospect which principal metals comprise gold, copper and silver.

In February 2009, Philex purchased the remaining 50% equity interest in the Boyongan deposit from Anglo American Exploration BV and Anglo American Exploration (Philippines) Inc. for a consideration of US\$55 million. A pre-feasibility study completed in November 2008 by Independent Resources Estimations of South Africa concluded that based on the assumptions used in their report, the Boyongan deposit is technically and financially feasible, with proven mineral reserve of 65.8 million tonnes containing 1.39 grams of gold per tonne and 0.87% copper.

Resource definition and in-fill drilling programs for the Bayugo prospect are underway, target estimate of resource is 200 million tonnes of gold and copper ore.

Investment

In July 2009, Philex consolidated full ownership in Philex Petroleum Corporation (PPC) by acquiring the remaining 49% interest in PPC from Anatolian Property BV. PPC's principal investment is related to petroenergy through its interest in Pitkin Petroleum Plc, Forum Energy Plc and Petroenergy Resources Corporation.

Outlook

During the first half of 2009, the gold price stabliized at a high level and copper price recovered some momentum. The current uncertain global financial environment remains a key factor on the stability of metal prices. The extension of the operating life of Padcal mine offers resources to the development of the Silangan project and possible further investments in petroenergy.

Reconciliation of reported results between Philex and First Pacific

Philex's operations are principally denominated in peso, which averaged Pesos 48.06 to the U.S. dollar. Its financial results are prepared under Philippine GAAP and reported in peso. The adjustment relates to the recognition of additional depreciation based on the revalued fair value of property, plant and equipment.
 - Revenue recognition regarding sale of mine products: Philex recognizes revenue based on the production of mine products. 2009 GOALS: HALF-YEAR REVIEW

First Pacific

Goal: Enhance the profitability of operating companies, in particular continue to improve the profitability of MPIC and of PLDT

Achievement: Achieved. Recurring profit slightly increased to US\$127.4 million from US\$126.5 million. MPIC's operational performance was strong across its three businesses, PLDT sustained growth, and whilst Indofood was adversely impacted by lower commodity prices, strong performance in its other businesses partially offset this impact. Philex suffered from lower commodity prices and slightly reduced ore milled as demand declined.

Goal: Manage the projected profitability of Indofood given the downturn in the CPO prices which will impact the profitability of Agribusiness

Achievement: Ongoing. The business development, particularly in the Consumer Branded Products division, has broadened the portfolio and thus together with improved performance generally reduced the impact from the significant downturn in the Agribusiness.

Goal: Continue to evaluate complementary investment opportunities in telecoms, infrastructure, consumer products and natural resources in the emerging markets of Asia

Achievement: Ongoing. First Pacific continues to review mining opportunities given that there are significant mining reserves and a more favorable regulatory environment in the Philippines; MPIC continues to study other water distribution concessions and enhancements to its tollroad portfolio along with other infrastructure opportunities. PLDT through Piltel completed its investment in Meralco in July. MPIC plans to complete its investment in Meralco by October 2009 and intends to acquire further shares in Meralco when opportunities arise.

Goal: Manage capital within the Group's financial resources and its overall investment plans to enhance shareholder returns

Achievement: Ongoing. First Pacific share price up 65% while the Hang Seng Index increased 28% during the period. The Board has declared an interim cash dividend of HK4.00 cents (U.S. 0.51 cent) per ordinary share, an increase of 33% over the previous period.

PLDT

Goal: Sustain wireless and broadband growth momentum

Achievement: Achieved and ongoing. Combined 2G/3G subscriber bases of Smart and Piltel grew 16% year-on-year to 38.5 million. Total broadband subscribers – DSL fixed and wireless - grew 26% to over a million. PLDT Group consolidated service revenues increased 4% to Pesos 72.9 billion (US\$1,516.9 million) from Pesos 70.3 billion (US\$1,662.7 million) the previous period.

Goal: Manage transformation to next generation network

Achievement: Ongoing. The transformation of PLDT fixed line network to the all-IP next generation network (NGN) from the traditional circuit-switched network continues, comprises both internal and outside plant facilities, align internal processes and human resources-related initiatives. The full migration to NGN is expected by 2012.

Goal: Achieve improved operating results from ePLDT

Achievement: Achieved and ongoing. Service revenues increased 5% to Pesos 5.2 billion (US\$108.2 million) from Pesos 5.0 billion (US\$118.3 million), while EBITDA margin was stable at 10% compared to the same period last year.

Goal: Conclude Piltel's proposed acquisition of a 20% interest in Manila Electric Company *Achievement*: Achieved. The acquisition was completed on 14 July 2009 when Piltel fully paid Pesos 20.1 billion (US\$417.6 million) for the 20% stake in Meralco. Three nominees from the group were elected to Meralco's board at Meralco Annual General Meeting held on 26 May 2009. The CFO of Meralco nominated by the group assumed the position on 1 July 2009.

MPIC

Goal: Conclude the proposed acquisition of a 10.17% interest in Manila Electric Company and play a key role in improving the financial performance of Meralco

Achievement: Ongoing. MPIC has agreed to acquire 12.96% interest in Meralco from the Beneficial Trust Fund (BTF) of PLDT and Crogan Limited (a wholly-owned subsidiary of First Pacific) for a total consideration of Pesos 18.2 billion (US\$379.0 million) through a combination of cash and new shares of MPIC. This investment is expected to be completed by October 2009 and MPIC intends to acquire further shares in Meralco when opportunities arise.

Goal: Further enhance profitability of Maynilad and NLEX through capex and marketing initiatives *Achievement*: Achieved and ongoing. Contributions from Maynilad increased 16 times to Pesos 423 million (US\$8.8 million) while NLEX contributed Pesos 680 million (US\$14.1 million). The capital expenditure at Maynilad for the period was Pesos 3,337 million (US\$69.4 million). Traffic volume on NLEX improved by 5%.

Goal: Expand tollroad portfolio principally through the NLEX expansion options and make further strategic acquisitions as opportunities arise

Achievement: Ongoing. The construction of Segment 8.1 (link Mindanao Avenue to NLEX) commenced in April 2009 and is expected to be completed by April 2010. The construction of Segment 9 (link NLEX to MacArthur Highway) and Segment 10 (link NLEX to the Port Area and C3) is expected to start in late 2010 or early 2011. In February 2009, MPTC signed a memorandum of understanding with the Philippine National Railways to build the Skyway Connector to connect the NLEX and the South Luzon Expressway.

Goal: Expand healthcare portfolio through organic growth and acquisition

Achievement: Achieved and ongoing. Contributions from the healthcare businesses increased 105% to Pesos 76 million (US\$1.6 million). In addition to the investments in MDI & DDH, MDI, through a wholly-owned subsidiary Colinas Verdes Hospital Managers Corp. (CVHMC), secured the 20-year contract to operate Cardinal Santos Medical Center (CSMC).

Goal: Increase the liquidity/free float to a minimum of 20% of the issued share capital *Achievement*: Ongoing. MPIC wishes to see a higher float. With its growth and acquisition plans, MPIC is actively considering raising equity.

Indofood

Goal: Further improve operational and cost efficiencies

Achievement: Ongoing. Consolidated net sales decreased 4% to Rupiah 18.2 trillion (US\$1,652.9 million) from Rupiah 18.9 trillion (US\$2,044.8 million) reflecting lower sales in Agribusiness division resulting mainly from significantly lower average CPO prices. Despite the significant impact of lower CPO prices, gross profit margin increased marginally to 26.7% from 26.4% reflecting lower raw material costs.

Goal: Maintain market leadership position through product innovation and focused advertising and promotion programs, as well as increasing distribution penetration

Achievement: Achieved and ongoing. The principal business units continued to maintain their market leadership positions and some remain as "Top of Mind" brands. New products for noodles, pasta, biscuit and snack units were launched during the period.

Goal: Develop key account team to manage all group products

Achievement: Ongoing. Established the Food Service team to serve the key account customers in the food industry, offering all Indofood products.

Goal: Continue the integration of IndoAgri and Lonsum's operations

Achievement: Ongoing. Key organizational and operational areas are being addressed, comprising overhead reduction, alignment of IT system, joint purchasing and developing infrastructure.

Goal: Preserve cash by tightening cash flow management and prioritizing capital expenditure *Achievement*: Ongoing. Agribusiness group slowed down its new planting program.

Goal: Refinance short-term debts to longer term facilities

Achievement: Partially achieved and ongoing. In June 2009, Indofood issued a Rupiah 1.61 trillion (US\$157 million) bond due in June 2014 to refinance a Rupiah 1 trillion (US\$98 million) bond due in July 2009 and other short-term debts.

Philex Mining Corporation

Goal: Maintain production of approximately 9 million tonnes of ore

Achievement: Ongoing. Total ore milled in the first half amounted to 4.0 million tonnes.

Goal: Allocate additional resources to advance the Silangan Project

⁽i) Includes pledged deposits and restricted cash

Head Office's gearing declined principally because of dividends received from PLDT. MPIC's gearing decreased due mainly to a growth of its total equity as a result of a conversion of advances into equity and the profit recorded for the period. Indofood's gearing remained broadly at the same level, reflecting an increase in both of its net debt (mainly because of payments for capital expenditure) and total equity (principally because of the profit recorded for the period). PLDT's gearing increased as increased dividend payment reduced total equity.

The Group's gearing improved to 0.98 times level principally as a result of a growth of the Group's total equity as a result of the profit recorded for the period.

CHARGES ON GROUP ASSETS

At 30 June 2009, certain bank and other borrowings were secured by the Group's property, plant and equipment, plantations, other intangible assets, accounts receivable, prepaid land premiums, cash and cash equivalents and inventories equating to a net book value of US\$1,433.5 million (31 December 2008: US\$1,455.3 million) and the Group's interest of 20.9% (31 December 2008: 17.6%) in PLDT, 6.4% (31 December 2008: 8.5%) in MPIC, 20.0% (31 December 2008: 20.1%) in Philex, 99.8 per cent in MPTC (31 December 2008: 99.8%), 24.5% in DMWC (31 December 2008: 24.5%) and 9.9% in Maynilad (31 December 2008: 9.9%).

FINANCIAL RISK MANAGEMENT

FOREIGN CURRENCY RISK

(A) Company risk

As the Head Office debts are currently denominated in U.S. dollars, foreign currency risk relates mainly to the receipt of cash dividends and to the translation of non-U.S. dollar denominated investments in subsidiary and associated companies.

The Company actively reviews the potential benefits of hedging based on forecast dividend flows and enters into hedging arrangements (including the use of forward exchange contracts) for managing its foreign currency exposure in respect of dividend income and payments in foreign currency on a transactional basis. However, the Company does not actively seek to hedge risks arising on the translation of foreign currency denominated investments due to the non-cash nature of such investments and the high costs associated with such hedging. Accordingly, the Company is exposed to the impact of foreign currency fluctuations on the translated U.S. dollar value of its foreign currency denominated investments.

With the exception of the Head Office, the principal components of the Group's NAV relate to investments denominated in the peso and rupiah. Accordingly, any change in these currencies, against their respective 30 June 2009 exchange rates, would have an effect on the Group's NAV in U.S. dollar terms.

The following table illustrates the estimated effect on the Group's adjusted NAV for a one per cent change of the peso and rupiah against the U.S. dollar.

		Effect on
	Effect on	adjusted NAV
	adjusted NAV(i)	per share
Company	ÚS\$ millions	HK cents
PLDT	24.6	5.96
MPIC	9.8	2.38

Philex	1.6	0.39
Total	44.1	10.69

⁽i) Based on quoted share prices as at 30 June 2009 applied to the Group's economic interest

(B) Group risk

The Group's operating results are denominated in local currencies, principally the peso and rupiah, which are translated and consolidated to give the Group's results in U.S. dollars.

NET DEBT BY CURRENCY

It is often necessary for operating entities to borrow in U.S. dollars, which results in the risk of a translation impact on local currency results. A summary of consolidated and associated companies' net debt by currency follows.

As a result of unhedged U.S. dollar net debt, the Group's results are sensitive to fluctuations in U.S. dollar exchange rates. The following table illustrates the estimated effect on the Group's reported profitability for a one per cent change in the principal operating currencies of subsidiary and associated companies. This does not reflect the indirect effect of fluctuating exchange rates on revenues and input costs at the operating company level.

INTEREST RATE RISK

The Company and its operating entities are exposed to changes in interest rates to the extent that they impact the cost of variable interest rate borrowings. An analysis of this for consolidated and associated companies follows.

- (ii) In April 2009, a wholly-owned subsidiary company of the Company entered into an interest rate swap agreement, which effectively changed a US\$200.0 million bank loan of the Head Office from London Inter-bank Offer Rate (LIBOR)-based variable interest rate to fixed interest rate.
- (iii) MNTC, a subsidiary company of MPIC, entered into certain interest rate swap agreements, which effectively changed US\$34.5 million of its bank loans at 30 June 2009 from LIBOR-based and Philippine Reference Rates (PHIREF)-based variable interest rates to fixed interest rates.
