PLDT is currently upgrading 200,000 lines to NGN while Smart has increased its wireless broadband capable cell sites to 2,200 as of the end of June 2006. The NGN has a simpler network architecture with less network elements and higher data services capability but at a lower cost.

Goal: Maximize Smart's 2G network by developing content and new services to encourage higher usage and penetrate lower income segments

Achievement: Achieved and ongoing. Smart introduced various competitive top-up plans to suit the requirements of specific market segments. These new promotions include *Smart Load "All Text"* which provides 15 non-expiring text messages for Pesos 12 per load and *Unli 30* which allows unlimited on-network texting for a period of 2 days without the need for registration. In order to support these initiatives, Smart has expanded the capacity of its cellular network to handle as much as 1 billion text messages per day.

Goal: Introduce 3G technology and develop services and applications to encourage usage

Achievement: Achieved and ongoing. Smart's 3G service was commercially launched on 1 May 2006. Smart currently offers 3G services such as Smart-to-Smart video calls; international video calls to selected countries; video and audio streaming, Internet and WAP browsing, video clip downloading, ring tones, visual ringtones and games at prices in line with its existing 2G services.

Indofood

Goal: Implement and continue to enhance the new distribution system to improve sales and area-specific product mix

Goal: Continue to expand oil palm plantation areas to be able to meet the supply requirements of its edible oil refineries

Achievement: *Achieved and ongoing.* Plantation land bank increased from approximately 95,000 hectares in December 2005 to approximately 138,000 hectares in the first half of 2006, of which approximately 63,000 hectares are planted with oil palm. In August 2006, Indofood's subsidiary company entered into a conditional agreement to acquire approximately 85,500 hectares plantation area and the transaction is expected to be completed by 31 December 2006.

In addition, debt to equity ratio was marginally reduced to 1.58 times (31 December 2005: 1.59 times) and net gearing ratio improved to 1.18 times (31 December 2005: 1.36 times).

Goal: Continue operational efficiency enhancement and cost reduction program

Achievement: *In progress.* Ongoing improvement in its supply chains, operating systems and procedures, and manpower rationalization will further enhance Indofood's operational effectiveness and capability.

Metro Pacific/Metro Pacific Investments Corporation (MPIC)

Goal: Complete reorganization and recapitalization plan

Achievement: *Partially achieved and ongoing.* 51.0 per cent interest in Landco is now held by a new and debt-free investment company MPIC. The consolidation of Metro Pacific's authorized capital stock will set the stage for MPIC to make a tender offer to Metro Pacific shareholders and thereafter effect the delisting of Metro Pacific and listing of MPIC.

Goal: Strengthen Landco's position as a diversified property developer through support to key expansion projects

Achievement: *In progress.* Landco's new parent company MPIC plans to raise new capital from international investors to accelerate Landco's new and expansion projects in upper and mid market residential resorts, first home subdivisions and regional shopping centers.

(iv) 1H06's non-recurring gains of US\$6.9 million mainly comprise a gain on dilution upon conversion of PLDT's convertible preference shares of US\$10.2 million and a gain on divestment of the Group's interest in PLDT of US\$7.1 million on settlement of certain Head Office's Exchangeable Notes with PLDT shares. 1H05's non-recurring gains of US\$14.6 million mainly comprised goodwill compensation received by Indofood in connection with the establishment of a joint venture entity of US\$5.0 million, a gain on dilution of the Group's interest in PLDT of US\$3.0 million and Metro Pacific's adjustments made to amounts owed to Pacific Plaza Towers contractor and others.

During the period, the Group's turnover increased by 20.6 per cent to US\$1,136.5 million (1H05: US\$942.5 million), principally reflecting an increase in Indofood's turnover and a strengthened rupiah. The Group's businesses improved their operating performance in 1H06, recording profit contributions totaling US\$87.7 million (1H05: US\$72.6 million), an increase of 20.8 per cent. PLDT

Philippine Long Distance Telephone Company (PLDT)'s operations are principally denominated in peso, which averaged Pesos 52.11 (1H05: 54.91) to the U.S. dollar. Its financial results are prepared under Philippine Generally Accepted Accounting Principles (GAAP) and reported in peso. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollar. Despite the Philippine GAAP and Hong Kong GAAP being largely based on International Financial Reporting Standards (IFRSs), certain adjustments still need to be made to PLDT's reported peso results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

(i) First Pacific presents net income after deduction of preference dividends.

(ii) Differences in accounting treatment under Philippine GAAP, compared with Hong Kong GAAP. The principal adjustment includes:

- Reclassification of non-recurring items: Certain items, through occurrence or size, are not considered usual, operating items which are reallocated and presented separately. In 1H06, Pesos 2.7 billion deferred tax assets and benefits (recognized after Piltel has established a history of taxable profits) and Pesos 2.5 billion additional accelerated depreciation expenses due to migration to Next Generation Network were excluded and presented separately as non-recurring items.

(iii) These are standard consolidation adjustments to ensure that transactions between Group companies are eliminated to present the Group as a single economic entity.

(iv) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative gains/losses (net of related tax) are excluded and presented separately.

PLDT contributed a profit of US\$66.5 million (1H05: US\$58.8 million) to the Group. In peso terms, its consolidated core earnings before foreign exchange and derivative losses, deferred tax assets and additional depreciation increased by 11 per cent to Pesos 15.2 billion (US\$291.7 million) (1H05: Pesos 13.7 billion; US\$249.5 million) contributed from higher revenues from both Wireless and Fixed Line data services. PLDT declared an interim dividend of Pesos 50 (US\$1) per share represented a 60 per cent payout of its consolidated core earnings. Consolidated net income decreased by 7 per cent to Pesos 15.3 billion (US\$293.6 million) (1H05: Pesos 16.5 billion; US\$300.5 million) which primarily resulted from foreign exchange losses, a higher statutory tax rate and additional depreciation expenses in relation to the migration of the existing fixed line system to Next Generation Network (NGN).

Review of Operations

PLDT's consolidated service revenues grew 2.0 per cent to Pesos 60.6 billion (US\$1,162.9 million) (1H05: Pesos 59.5 billion; US\$1,083.6 million) reflecting the net effect of higher revenue contributions from the Wireless and Information and Communications Technology (ICT) business groups, partly offset by lower Fixed Line revenues. With the combined effect of revenue growth and continued management of cash costs, PLDT group's earnings before interest, tax, depreciation and amortization (EBITDA) improved by 7 per cent to Pesos 40.4 billion (US\$775.3 million) (1H05: Pesos 37.9 billion; US\$690.2 million). EBITDA margin increased to 67 per cent (1H05: 64 per cent) of service revenues.

For the first half of 2006, consolidated data revenue grew by 12 per cent to Pesos 26.1 billion (US\$500.9 million) which accounted for 43 per cent of the consolidated revenue compared with 39 per cent contribution in 2005. The increase in consolidated data and ICT revenues more than compensated for the decline in traditional voice revenues. Going forward, PLDT expects its revenue mix to shift from voice to data as it continues to upgrade its networks to support the growth in broadband and other data services.

The ICT group is expected to increase its overall contribution to the PLDT group. ePLDT will continue to broaden its revenue base from its existing core businesses, complemented by strategic investments in new areas with high growth potential.

PLDT's consolidated free cash flow stood at Pesos 17.4 billion (US\$333.9 million) (1H05: Pesos 27.4 billion; US\$499.0 million) despite a 77 per cent increase in consolidated capital expenditure to Pesos 12.4 billion (US\$238.0 million) (1H05: Pesos 7.0 billion; US\$127.5 million) as a result of the ongoing upgrade and expansion of its fixed line and cellular network facilities. Its strong free cash flow enabled it to reduce debt by US\$269 million during the first half of 2006. It plans to repay an additional US\$81 million in the second half of 2006. PLDT group's total debt was US\$1.8 billion as at the end of June 2006 (31 December 2005: US\$2.1 billion).

Wireless: Smart's and Piltel's consolidated wireless service revenues increased by 6 per cent to Pesos 38.6 billion (US\$740.8 million) (1H05: Pesos 36.5 billion; US\$664.7 million) principally contributed from the sustained growth in data revenue and *Smart 25th* series packages and promotions. Consolidated wireless EBITDA increased by 8 per cent to Pesos 25.8 billion (US\$495.1 million) (1H05: Pesos 23.9 billion; US\$435.3 million) resulting from Smart's efforts on reducing cash operating expenses, while EBITDA margins improved to 67 per cent. Smart and Piltel's *Talk 'N Text* combined GSM subscriber base grew by 2.1 million during the period to 22.5 million (31 December 2005: 20.4 million) which represents approximately 59 per cent of the cellular market in the Philippines. As at the end of June 2006, the cellular penetration rate in the Philippines was approximately 44 per cent.

Smart has invested US\$60 million in its 3G network which is the widest 3G network in the Philippines. Its 3G services enables video calling in 142 Philippine's cities and international video calling to 13 countries, TV streaming of major television networks in the Philippines, and downloading of full music tracks and video clips from the Internet.

Smart continued to introduce various attractive innovative wireless broadband products and services under brand names of *Smart Bro*. Through the ongoing network coverage and capacity expansion, and market segmentation, PLDT's Wireless group is able to further strengthen its market leader position by offering value-added SMS and voice call packages to satisfy its wide-range subscribers' needs and to employ its facilities efficiently. The future revenue growth is expected to continue to be driven by broadband and data services. This equips PLDT to transform Smart from a cellular company into a multi-service wireless communications provider.

Fixed Line: Fixed Line service revenues were flat at Pesos 24.1 billion (US\$462.5 million) (1H05: Pesos 24.2 billion; US\$440.7 million) resulting from the increase in corporate data and residential digital subscriber line (DSL) data services revenues which were offset by the reduction in revenues of the local exchange and international long distance call service revenues due to the five per cent year-on-year appreciation of the peso. Fixed Line EBITDA improved by 4 per cent to Pesos 14.2 billion (US\$272.5 million) (1H05: Pesos 13.6 billion; US\$247.7 million) reflecting the significant decline in doubtful account provision and EBITDA margins recorded an improvement to 59 per cent (1H05: 56 per cent).

PLDT DSL and *Vibe* dial-up Internet service accelerated their growth during the period, their consolidated revenues significantly improved by 43 per cent to Pesos 1.7 billion (US\$32.6 million). As at the end of June 2006, DSL's broadband subscriber grew by 20,000 to 109,000 while *Vibe* dial-up Internet service subscriber increased by 43,000 during the period to 425,000.

The ongoing upgrade to NGN is expected to increase PLDT's network capabilities and efficiency, as well as reduce operating costs.

Information and Communications Technology: ePLDT service revenues rose 36 per cent to Pesos 1.8 billion (US\$34.5 million) (1H05: Pesos 1.3 billion; US\$23.7 million) of which Pesos 1.2 billion (US\$23.0 million) or 68 per cent was contributed from its call center group ePLDT Ventus. Consolidated call center revenues grew by 48 per cent during the period resulting from an increase in capacity utilization and business expansion. Currently, its call centers have 4,660 seats operating in seven locations.

On 11 July 2006, PLDT expanded its business portfolio to global business process outsourcing (BPO) market by acquiring the full ownership of SPI Technologies, Inc. (SPI) which ranked the world's second largest pure-play BPO service provider and the ninth largest independent BPO company. Its principal businesses include content editorial and production, litigation support coding and electronic discovery, medical transcription, and database structuring and management. This acquisition increased ePLDT's service seats to 8,300.

ePLDT accelerates its gaming content development for both fixed line broadband and wireless businesses by acquiring 60 per cent interest of Level Up! Philippines, and 20 per cent interest in PhilWeb which is an internet-based gaming company.

Review of Operations

Indofood

PT Indofood Sukses Makmur Tbk (Indofood)'s operations are principally denominated in rupiah, which averaged Rupiah 9,180 (1H05: 9,443) to the U.S. dollar. Its financial results are prepared under Indonesian GAAP and reported in rupiah. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollar. Accordingly, certain adjustments need to be made to Indofood's reported rupiah results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

- (i) Differences in accounting treatment under Indonesian GAAP, compared with Hong Kong GAAP. The principal adjustments include:
- *Reclassification of non-recurring items: Certain items, through occurrence or size, are not considered usual, operating items which are reallocated and presented separately. Adjustment for 1H06 of Rupiah 55 billion losses represents Rupiah 29 billion write-off of deferred tax assets as a consequence of a group restructuring among subsidiary companies within Indofood's edible oils and fats division and Rupiah 26 billion of manpower rightsizing costs. Adjustment for 1H05 of Rupiah 47 billion gains represents Rupiah 91 billion goodwill compensation received in connection to the establishment of a joint venture entity, partly offset by Rupiah 44 billion of manpower rightsizing costs.*
 - *Gain on revaluation of plantations: Under Indonesian GAAP, Indofood measures its plantations (biological assets) on historical cost basis. HKAS 41 "Agriculture" requires the measurement of plantations at fair value less estimated point-of-sale costs. The adjustment relates to the changes in fair value of plantations during the period.*
 - *Foreign exchange accounting: The adjustment relates to the reversal of the amortization of foreign exchange losses that were previously capitalized by Indofood on certain fixed assets under construction, as the originating capitalized foreign exchange losses has already been written off by First Pacific.*
- (ii) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative gains/losses (net of related tax) are excluded and presented separately.

Indofood contributed a recurring profit of US\$23.8 million (1H05: US\$15.5 million) in the first half of 2006 representing a 53.5 per cent improvement over the same period in 2005. In rupiah terms, consolidated sales increased by 17.8 per cent to Rupiah 10,141.7 billion (US\$1,104.7 million) (1H05: Rupiah 8,608.7 billion; US\$911.6 million) contributed from strong volume growth in most business groups despite weak consumer purchasing power. Due to higher fuel-related and raw material costs, consolidated operating expenses were up by 9.3 per cent to Rupiah 1,371.4 billion (US\$149.4 million) (1H05: Rupiah 1,255.2 billion; US\$132.9 million) and gross margin decreased to 22.7 per cent (1H05: 24.9 per cent). Net income significantly increased to Rupiah 267.8 billion (US\$29.2 million) (1H05: Rupiah 14.5 billion; US\$1.5 million) reflecting improved sales and foreign exchange gain of Rupiah 50.2 billion (US\$5.5 million) (1H05: Loss of Rupiah 445.1 billion; US\$47.1 million). Net interest costs slightly declined to Rupiah 414.1 billion (US\$45.1 million) (1H05: Rupiah 427.3 billion; US\$45.3 million) reflecting the lower average outstanding balance of the Eurobonds due in 2007 as a result of early redemptions made in 2005 and 2006. Debt to equity ratio stood at 1.58 times (31 December 2005: 1.59 times) and net gearing ratio improved to 1.18 times (31 December 2005: 1.36 times).

On 23 August 2006, Indofood announced the proposed listing of its oil palm plantations and edible oils and fats (EOF) businesses through a reverse takeover of a Singapore listed company ISG Asia Limited (ISG). According to the proposal, Indofood agreed to sell its EOF businesses valued at approximately S\$392.7 million (US\$248.5 million) to ISG for an exchange of 9.982 billion new ISG shares; ISG to be renamed to Indofood Agri Resources Limited; and thereafter to issue additional new shares to raise fund for the expansion of its EOF business group. The proposal is subject to respective shareholders' and regulatory authorities' approval.

Consumer Branded Products includes Noodles, Nutrition and Special Foods, Snack Foods and Food Seasonings. Total sales of this business group improved by 23.1 per cent to Rupiah 4,048.7 billion (US\$441.0 million) (1H05: Rupiah 3,288.6 billion; US\$348.3 million).

Noodles' sales increased by 21.2 per cent to Rupiah 3,517.9 billion (US\$383.2 million) (1H05: Rupiah 2,901.7 billion; US\$307.3 million) partially supported by the improvement in the distribution system and an implementation of certain marketing strategies, despite increased in raw materials and operating costs. Income from operations improved by 19.1 per cent to Rupiah 299.5 billion (US\$32.6 million) (1H05: Rupiah 251.4 billion; US\$26.6 million).

Nutrition and Special Foods recorded a 42.1 per cent increase in sales to Rupiah 179.7 billion (US\$19.6 million) (1H05: Rupiah 126.5 billion; US\$13.4 million), as a result of the increase in sales volume and average selling price. Income from operations was up 33.1 per cent to Rupiah 31.7 billion (US\$3.5 million) (1H05: Rupiah 23.8 billion; US\$2.5 million).

Sales of **Snack Foods** grew by 45.0 per cent to Rupiah 191.9 billion (US\$20.9 million) (1H05: Rupiah 132.3 billion; US\$14.0 million) stimulated mainly by the increase in sales volume. Income from operation improved by over two times to Rupiah 12.7 billion (US\$1.4 million) (1H05: Rupiah 4.0 billion; US\$0.4 million). Management will continue to review Snack Foods' products range and marketing strategy to sustain growth.

Food Seasoning recorded a 24.3 per cent increased in sales to Rupiah 159.2 billion (US\$17.3 million) (1H05: Rupiah 128.1 billion; US\$13.6 million) due to increased sales volume. Income from operations turnaround to a profit of Rupiah 1.9 billion (US\$0.2 million) from a loss of Rupiah 9.9 billion (US\$1.0 million) for the same period in 2005.

Bogasari: Sales improved by 13.9 per cent to Rupiah 4,121.0 billion (US\$448.9 million) (1H05: Rupiah 3,616.8 billion; US\$383.0 million) reflecting the increase in sales volume of flour, flour's by-product and pasta. Income from operations improved by 51.9 per cent to Rupiah 427.8 billion (US\$46.6 million) (1H05: Rupiah 281.6 billion; US\$29.8 million).

Edible Oils and Fats: Performance of this business unit pressured by U.S. dollar-linked revenues due to the appreciation of rupiah during the period despite total sales improvement to Rupiah 2,166.1 billion (US\$236.0 million) (1H05: Rupiah 2,057.7 billion; US\$217.9 million).

On 16 August 2006, Indofood subsidiary company signed a conditional sale and purchase agreement to acquire approximately 85,500 hectares of plantation land. The transaction is expected to be completed by 31 December 2006. This is in line with Indofood's long-term strategy to accelerate the expansion of its oil palm plantation and development of its Edible Oils and Fats business group.

Cooking Oils and Fats' sales increased by 9.7 per cent to Rupiah 1,241.8 billion (US\$135.3 million) (1H05: Rupiah 1,131.6 billion; US\$119.8 million) contributed from the increase in sales volume. Operational results turned to a loss of Rupiah 4.7 billion (US\$0.5 million) (1H05: a profit of Rupiah 34.3 billion; US\$3.6 million).

Review of Operations

Sales of the **Commodity** stabled at Rupiah 384.3 billion (US\$41.9 million) (1H05: Rupiah 388.4 billion; US\$41.1 million). Though sales volume of coconut oil based and crude palm oil based products increased, operational results reported a loss of Rupiah 38.2 billion (US\$4.2 million) (1H05: a profit of Rupiah 5.5 billion; US\$0.6 million) due to the strengthening of Rupiah as majority of the sales are exported.

Plantation: Indofood increased its plantation size from approximately 95,000 hectares in December 2005 to approximately 138,000 hectares in the first half of 2006. The current CPO supply can support approximately 45 per cent of Indofood's internal demand. Sales stabled at Rupiah 540.0 billion (US\$58.8 million) (1H05: 537.6 billion; US\$56.9 million). Income from operations declined by 17.9 per cent to Rupiah 220.8 billion (US\$24.1 million) (1H05: Rupiah 269.1 billion; US\$28.5 million).

Distribution reported a 37.0 per cent grew in sales to Rupiah 1,417.2 billion (US\$154.4 million) (1H05: Rupiah 1,034.5 billion; US\$109.6 million) resulted from the improvement in distribution system and focused marketing strategy. Income from operations improved by 63.1 per cent to Rupiah 8.6 billion (US\$0.9 million) (1H05: Rupiah 5.3 billion; US\$0.6 million).

Metro Pacific/MPIC

Metro Pacific Corporation (Metro Pacific)/Metro Pacific Investments Corporation (MPIC)'s operations are principally denominated in peso, which averaged Pesos 52.11 (1H05: 54.91) to the U.S. dollar. Its financial results are prepared under Philippine GAAP and reported in peso. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollar. Despite the Philippine GAAP and Hong Kong GAAP being largely based on IFRSs, certain adjustments still need to be made to Metro Pacific's reported peso results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

(i) Differences in accounting treatment under Philippine GAAP, compared with Hong Kong GAAP. The principal adjustment includes:

- Reclassification of non-recurring items: Certain items, through occurrence or size, are not considered usual, operating items which are reallocated and presented separately. Adjustment for 1H06 of Pesos 0.3 billion losses principally relate to provisions for a vessel and an investment in a real estate associated company. Adjustment for 1H05 of Pesos 0.2 billion gains principally relate to adjustments made to amounts owed to Pacific Plaza Towers contractor.

(ii) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative gains (net of related tax) are excluded and presented separately.

Metro Pacific/MPIC contributed a recurring loss of US\$1.4 million (1H05: loss of US\$1.1 million) to the Group. At Metro Pacific/MPIC level, a loss of Pesos 446.0 million (US\$8.6 million) was reported which was largely a reflection of two non-recurring items; a vessel write down and a provision made against an affiliated real estate investment. Consolidated revenues were Pesos 1.7 billion (US\$31.8 million) (1H05: Pesos 1.7 billion; US\$30.9 million) reflecting higher revenues from Landco Pacific Corporation (Landco Pacific) offset by lower revenues from Negros Navigation Co., Inc. due to over-capacity in the Philippines domestic shipping industry. Operating expenses increased by 49.2 per cent to Pesos 333.4 million (US\$6.4 million) (1H05: Pesos 223.5 million; US\$4.1 million) largely reflecting pre-development activities in relation to Landco Pacific's new and expansion projects.

In March 2006, Metro Pacific commenced its reorganization and recapitalization plan to strengthen its capital position in preparation for new growth. The first stage of the plan; migrating Metro Pacific's 51.0 per cent owned subsidiary Landco, Inc. to a newly established investment company, MPIC, was completed in April 2006. On 23 August 2006, Metro Pacific received approval from the Philippine Securities and Exchange Commission to consolidate every 20 common shares of Metro Pacific into one new Metro Pacific share. MPIC plans to announce details of its tender offer to Metro Pacific shareholders in September 2006. The offer is anticipated to be for every four Metro Pacific consolidated common shares to exchange for one new MPIC common share and to Metro Pacific's minority shareholders, three warrants to subscribe for three MPIC common shares at par. MPIC plans to list on the Philippine Stock Exchange in November 2006 and Metro Pacific will become its unlisted subsidiary company.

Level Up

Level Up! International Holdings Pte. Ltd. (Level Up) contributed a recurring loss of US\$1.2 million (2Q05: post acquisition recurring loss of US\$0.6 million) to the Group. The Group also shared a non-recurring gain of US\$1.8 million arising from the disposal of 60 per cent interest in Level Up! Philippines to ePLDT in April 2006.

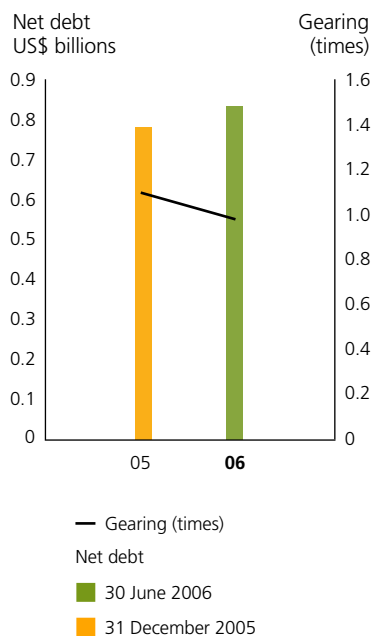

In **the Philippines**, Level Up's market share of paying subscribers is stable at approximately 80 per cent. Ragnarok (developed by Gravity Co. Ltd.) remains the most popular game since it was launched in 2003. Level Up is working with Gravity to revitalize Ragnarok and to launch new product features in Rose (a 3-D massively multiplayer online role playing game (MMORPG) developed by Gravity). Another 3-D MMORPG, RF Online (developed by CCR Inc.) and a leading Korean sports casual game, Free Style (developed by JCE Entertainment Co. Ltd.) were launched in January and March 2006, respectively. Level Up increases its market reach by partnering with a leading consumer brand and a leading magazine.

ePLDT, a wholly-owned subsidiary of PLDT, completed the acquisition of 60 per cent interest of this operation in April 2006. The company will merge with ePLDT's netGames by year end of 2006. The merger is expected to realize significant cost savings, enhance efficiencies and further strengthen the company's position as a market leader.

In **Brazil**, Ragnarok remains popular. Level Up plans to launch new games Gunz (developed by Maiet Entertainment Inc.), Grand Chase (developed by KOG Studios) and RF Online in the second half of 2006, as well as to distribute Ragnarok game time through a leading Brazilian Internet portal. Level Up continues to expand its distribution network to reach popular street kiosks in metropolitan areas and plans to offer its prepaid cards and CDs through leading national retail outlets.

In **India**, Level Up launched limited commercial service for Ragnarok in March 2006. Gunz is in an open beta stage and the commercial launch is expected to take place in the third quarter of 2006. Level Up continues to develop its distribution networks in key metropolitan areas. India is a very early stage market with significant medium term potential; hence no significant revenues are expected in the short term.

(ii) Group adjustments mainly represents elimination of goodwill arising from acquisitions prior to 1 January 2001 against the Group's accumulated losses and other standard consolidation adjustments to present the Group as a single economic entity.

Head Office's gearing increased principally because of payments for the additional investment for 1.1 per cent interest in PLDT. Indofood's gearing declined mainly because of increased total equity. Metro Pacific/MPIC's gearing declined mainly because of larger equity base and debt settlements at Metro Pacific. PLDT's gearing declined as strong free cash flows were used to reduce debts and profits enhanced total equity.

The Group's gearing continued to improve to 0.99x level principally as a result of the growth of Group's total equity as a result of strong profit contributions from PLDT and Indofood.

Charges on Group Assets

At 30 June 2006, certain bank and other borrowings were secured by the Group's property and equipment, accounts receivables, available-for-sale assets and inventories with a net book value of US\$74.1 million (31 December 2005: US\$45.2 million). Apart from these, the Head Office's US\$108.0 million secured bonds and a US\$50.0 million bank loan were secured by the Group's interests of 51.5 per cent (31 December 2005: 51.5 per cent) in Indofood and 1.7 per cent (31 December 2005: 1.7 per cent) in PLDT, respectively.

Financial Risk Management

Foreign Currency Risk

(a) Company Risk

As the Head Office debt is currently denominated in U.S. dollars, foreign currency risk relates mainly to the receipt of cash dividends and to the translation of non-U.S. dollar denominated investments in subsidiary and associated companies.

The Company actively reviews the potential benefits of hedging based on forecast dividend flows and enters into hedging arrangements (including the use of forward exchange contracts) for managing its foreign currency exposure in respect of dividend income and payments in foreign currency on a transactional basis. However, the Company does not actively seek to hedge risks arising on the translation of foreign currency denominated investments due to the non-cash nature of such investments and the high costs associated with such hedging. Accordingly, First Pacific is exposed to the impact of foreign currency fluctuations on the translated U.S. dollar value of its foreign currency denominated investments.

With the exception of the Head Office, the principal components of the Group's net asset value (NAV) relate to investments denominated in the peso and rupiah. Accordingly, any change in these currencies, against their respective 30 June 2006 exchange rates, would have an effect on the Group's NAV in U.S. dollar terms.

The following table illustrates the estimated effect on the Group's adjusted NAV for a one per cent change of the peso and rupiah against the U.S. dollar.

Company	Effect on adjusted NAV ⁽ⁱ⁾ US\$ millions	Effect on adjusted NAV per share HK cents
PLDT	15.5	3.79
Indofood	4.2	1.02
MPIC	0.2	0.04
Total	19.9	4.85

(i) Based on quoted share prices as at 30 June 2006 applied to the Group's economic interest for PLDT and Indofood and investment cost for MPIC.

(ii) The NAV of the Group's investment in Level Up is based on its historic U.S. dollar cost and, accordingly, any depreciation of the peso, rupee and reais would not affect the Group's adjusted NAV.

(b) Group Risk

The Group's operating results are denominated in local currencies, principally the peso and rupiah, which are translated and consolidated to give the Group's results in U.S. dollars.

Financial Review

Analysis of Total Borrowing by Currency

Net Debt by Currency

It is often necessary for operating entities to borrow in U.S. dollars, which results in the risk of a translation impact on local currency results. A summary of consolidated and associated companies' net debt by currency follows.

Peso and Rupiah Closing Rates against the U.S. Dollar

As a result of unhedged U.S. dollar net debt, the Group's results are sensitive to fluctuations in U.S. dollar exchange rates. The following table illustrates the estimated effect on the Group's reported profitability for a one per cent change in the principal operating currencies of subsidiary and associated companies. This does not reflect the indirect effect of fluctuating exchange rates on revenues and input costs at the operating company level.

US\$ millions	Total US\$ exposure	Hedged amount	Unhedged amount	Profit effect of 1% currency change	Group net profit effect
PLDT	1,375.2	884.7	490.5	4.9	0.7

Total	1,793.2	884.7	908.5	6.8	1.4

(i) As the Group reports its results in U.S. dollars, unhedged U.S. dollar debt at the Head Office does not give rise to any significant exchange exposure.

Stock Market Indices

Equity Market Risk

As the majority of the Company's investments are listed, the Company is exposed to fluctuations in the equity market values of such investments. In addition, the value of the Company's investments may be impacted by sentiment towards specific countries.

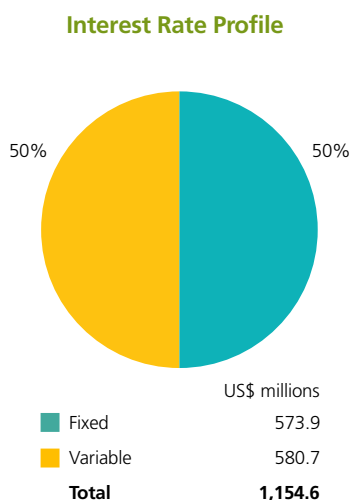

First Pacific's listed investments are located in the Philippines and Indonesia. Accordingly, in addition to operating factors within the Company's control, the Company also has an equity market risk in respect of general investor sentiment towards these countries. Changes in the stock market indices of the Philippines and Indonesia is summarized as follows.

	Philippine Composite Index	Jakarta Composite Index
At 31 December 2005	2,096.0	1,162.6
At 30 June 2006	2,178.8	1,310.3
Increase during first half of 2006	4.0%	12.7%

In January 2005, a wholly-owned Head Office subsidiary company issued a zero coupon 5-year US\$199 million Exchangeable Notes guaranteed by the Company. Exchangeable Notes with face amount of US\$7.5 million were settled during the first half of 2006, leaving an outstanding principal amount of US\$191.5 million. The holders of the Exchangeable Notes have the right to exchange the Exchangeable Notes to the underlying approximately 3.6 per cent interest in PLDT and the Company has the option to settle such exchange obligation in cash or shares in PLDT. Pursuant to HKAS 39 "Financial Instruments: Recognition and Measurement", the exchange option embedded in the Exchangeable Notes is subject to mark-to-market fair value accounting which has a strong correlation to the changes in PLDT share price and generated a non-cash accounting loss of US\$2.1 million in the first half of 2006. The change of such option liability is economically hedged by a corresponding change in the value of PLDT shares held by the Group generally and specifically with respect to the approximately 3.6 per cent PLDT shares underlying the Exchangeable Notes. Such a natural hedge and the corresponding change in value of the Group's shareholding in PLDT, however, is not to be reflected in the Group's financial results under HKAS "28 Investments in Associates" as the Group's investments in and results of PLDT are equity accounted for.

During the first half of 2006, the Group purchased a 1.1 per cent interest in PLDT for US\$73.7 million and designated them as financial assets at fair value through profit or loss to both provide additional economic hedge against the changes in option liability and to enhance the Group's strategic shareholding in PLDT. The change in fair value of such interest in PLDT resulted in the Group recording an accounting loss of US\$3.3 million during such period.

Notes to the Condensed Interim Financial Statements

1. Basis of Preparation and Changes in Accounting Policies

(a) Basis of Preparation

The Condensed Interim Financial Statements have been prepared in accordance with Hong Kong Accounting Standard (HKAS) 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (HKICPA) and the disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the Listing Rules) issued by The Stock Exchange of Hong Kong Limited (SEHK). The Condensed Interim Financial Statements have been prepared on a basis consistent with the accounting policies adopted in the Group's 2005 audited Financial Statements, except as described below.

(b) Impact of New and Revised HKFRSs

Certain changes to Hong Kong Generally Accepted Accounting Principles (Hong Kong GAAP) have been implemented during 2006 as a consequence of the following new and revised HKASs, Hong Kong Financial Reporting Standards (HKFRSs) and Hong Kong (International Financial Reporting Interpretations Committee) – Interpretations (HK(IFRIC) – Ints) issued by the HKICPA, which became effective for accounting periods commencing on, or after, 1 January 2006:

HKAS 19 Amendment	"Actuarial Gains and Losses, Group Plans and Disclosures"
HKAS 21 Amendment	"The Effects of Changes in Foreign Exchange Rates – Net Investment in a Foreign Operation"
HKAS 39 Amendment	"Cash Flow Hedge Accounting of Forecast Intragroup Transactions"
HKAS 39 Amendment	"The Fair Value Option"
HKAS 39 and HKFRS 4 Amendments	"Financial Instruments: Recognition and Measurement and Insurance Contracts – Financial Guarantee Contracts"
HKFRSs 1 & 6 Amendments	"First-time Adoption of Hong Kong Financial Reporting Standards and Exploration for and Evaluation of Mineral Resources"
HKFRS 6	"Exploration for and Evaluation of Mineral Resources"
HK(IFRIC)-Int 4	"Determining whether an Arrangement contains a Lease"
HK(IFRIC)-Int 5	"Rights to Interests Arising from Decommissioning, Restoration and Environmental Rehabilitation Funds"
HK(IFRIC)-Int 6	"Liabilities Arising from Participating in a Specific Market – Waste Electrical and Electronic Equipment"

Except for HKAS 39 Amendment "The Fair Value Option", the adoption of the pronouncements listed above has had no material impact on the accounting policies of the Group and the methods of computation in the Group's Condensed Interim Financial Statements. The adoption of HKAS 39 Amendment "The Fair Value Option" has resulted in the Group applying more restrictive criteria for designating financial instruments as financial assets/liabilities at fair value through profit or loss.

During the period, the Group designated 1.1 per cent interest in PLDT acquired during 2006 as financial assets at fair value through profit or loss. Please refer to Note 12 for details. The adoption has had no effect on both the profit attributable to equity holders of the parent for the periods ended 30 June 2006 and 30 June 2005 and equity attributable to equity holders of the parent at 30 June 2006 and 31 December 2005.

6. Profit Attributable to Equity Holders of the Parent

Profit attributable to equity holders of the parent includes US\$3.7 million (2005: US\$7.7 million) net foreign exchange and derivative losses which comprise US\$0.4 million (2005: US\$7.7 million) losses on changes in the fair values of derivatives and the translation of the unhedged foreign currency denominated borrowings, and a US\$3.3 million (2005: Nil) loss on changes in the fair value of 1.1 per cent PLDT shares acquired by the Group in 2006 and designated as financial assets at fair value through profit or loss, and US\$6.9 million (2005: US\$14.6 million) net non-recurring gains.

Analysis of Foreign Exchange and Derivative Losses

For the six months ended 30 June US\$ millions	2006	2005
Foreign exchange and derivative gains /(losses)		
– Subsidiary companies	0.4	(24.3)
– Associated companies	(0.9)	11.4
Subtotal	(0.5)	(12.9)
Attributable to taxation and minority interest	(3.2)	5.2
Total	(3.7)	(7.7)

The non-recurring gains of US\$6.9 million for 2006 mainly comprise a gain on dilution upon the conversion of PLDT's convertible preference shares of US\$10.2 million and a gain on divestment of the Group's interest in PLDT of US\$7.1 million on settlement of certain Head Office's Exchangeable Notes with PLDT shares. 2005's non-recurring gains of US\$14.6 million mainly comprised goodwill compensation received by Indofood in connection with the establishment of a joint venture entity of US\$5.0 million, a gain on dilution of the Group's interest in PLDT of US\$3.0 million and Metro Pacific's adjustments made to amounts owed to Pacific Plaza Towers contractor and others.

7. Ordinary Share Dividend

At a meeting held on 7 September 2006, the Directors declared an interim cash dividend of U.S. 0.13 cent (2005: U.S. 0.13 cent) per ordinary share totaling US\$4.1 million (2005: US\$4.1 million).

8. Earnings per Share

The calculation of basic earnings per share is based on the profit for the period attributable to equity holders of the parent of US\$72.2 million (2005: US\$60.8 million), and the weighted average number of 3,189.0 million (2005: 3,186.0 million) ordinary shares in issue during the period.

The calculation of diluted earnings per share amount is based on: (i) profit for the period attributable to equity holders of the parent of US\$72.2 million (2005: US\$60.8 million) reduced by US\$0.2 million (2005: US\$4.5 million) in respect of the dilutive impact from the full conversion of convertible preference shares and share options issued by its associate PLDT, and (ii) a share base equal to the aggregate of the weighted average number of 3,189.0 million (2005: 3,186.0 million) ordinary shares in issue during the period (as used in the basic earnings per share calculation) and the weighted average of 46.9 million (2005: 40.4 million) ordinary shares assumed to have been issued at no consideration on the deemed exercise of all share options of the Company during the period.

The impact upon full conversion of Head Office's Exchangeable Notes has not been taken into account in calculating the earnings per share because its anti-dilutive effect on the basic earnings per share for the period would actually increase the earnings per share.

9. Subsidiary Companies

- (a) Details of principal subsidiary companies which, in the opinion of the Directors, materially affect the results or net assets of the Group, are set out on page 48.
- (b) Metro Pacific group contributes to the Group's property and transportation business segment (refer to Note 2). Since the fourth quarter of 2001, it has been unable to meet its debt repayment obligations. Metro Pacific's ability to continue as a going concern is dependent on a number of factors, which includes its ability to settle or restructure its debt obligations, the availability of refinancing of debts and the success of its plan to revitalize its business and generate sufficient cash flows to ensure sustained and profitable operations. Metro Pacific had successfully reduced its parent company's debt obligations to Pesos 566 million (US\$10.7 million) at 30 June 2006 from Pesos 11.7 billion (US\$220.3 million) at 31 December 2001 when the debt reduction program was commenced.

Negros Navigation Co., Inc. (Nenaco), a 99.0 per cent-owned subsidiary company of Metro Pacific, obtained approval for its corporate rehabilitation plan from the Manila Regional Trial Court on 4 October 2004. With the approval of the corporate rehabilitation plan, Nenaco will focus on enhancing its profitability by strengthening its marketing efforts and operational efficiencies. Metro Pacific is reviewing a number of strategic options with respect to its investment in Nenaco.

Notes to the Condensed Interim Financial Statements

12. Financial Assets at Fair Value through Profit or Loss

The amount represents the fair value, determined based on a quoted market price, of 1.1 per cent interest in PLDT acquired by the Group during the period and designated as financial assets at fair value through profit or loss to partially offset against the exposure arising from changes in the fair value of the option element embedded in Head Office's Exchangeable Notes. The Directors consider that such a designation is appropriate since the change in value of such assets will have a strong correlation with any change in the fair value of the option embedded in the Exchangeable Notes.

13. Accounts Receivable, Other Receivables and Prepayments

Included in accounts receivable, other receivables and prepayments are trade receivables of US\$172.8 million (31 December 2005: US\$173.3 million), with an ageing profile as below.

Review Report of the Auditors

To the Board of Directors of First Pacific Company Limited

(Incorporated in Bermuda with limited liability)

Introduction

We have been instructed by the Company to review the Condensed Interim Financial Statements set out on pages 22 to 39.

Respective Responsibilities of Directors and Auditors

The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of Condensed Interim Financial Statements to be in compliance with HKAS 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants and the relevant provisions thereof. The Condensed Interim Financial Statements are the responsibility of, and have been approved by, the Directors. It is our responsibility to form an independent conclusion, based on our review, on the Condensed Interim Financial Statements and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Review Work Performed

We conducted our review in accordance with Statement of Auditing Standards 700 "Engagements to Review Interim Financial Reports" issued by the Hong Kong Institute of Certified Public Accountants. A review consists principally of making enquiries of Group management and applying analytical procedures to the Condensed Interim Financial Statements and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the Condensed Interim Financial Statements.

Review Conclusion

On the basis of our review which does not constitute an audit, we are not aware of any material modifications that should be made to the Condensed Interim Financial Statements for the six months ended 30 June 2006.
